

Aura Fabricators Inc.

Job Description

Job Title: CDL Local/Regional Truck Driver
Department: Logistics Department
Location: Dalton, MN
Reports To: Logistics Manager
Prepared Date: August 13, 2025

Job Summary/Description

Aura Fabricators Inc. is seeking a reliable and experienced Truck Driver to join our dynamic team. As a key member of our logistics department, you will play a crucial role in ensuring timely and safe transportation of metal fabricated products to various destinations.

Essential Duties and Responsibilities

- Operate company-owned trucks to transport metal fabricated products to designated locations in a safe and efficient manner.
- Assist in the loading and unloading of metal products, ensuring proper securing and handling to prevent damage during transit.
- Work with the Logistics Manager on planning and optimizing delivery routes to maximize efficiency and ensure on-time deliveries.
- Conduct routine inspections and maintenance on assigned trucks, ensuring they are in good working condition. Report any issues promptly.
- Complete accurate and timely delivery logs, trip reports, or other required documentation. Maintain compliance with relevant regulations.
- Provide excellent customer service during deliveries, including professional communication and representing the company positively.
- Comply with all local, state, and federal regulations governing the transportation of goods, including traffic regulations and safety standards.
- Inspect finished goods in all shipping phases to ensure quality of product is maintained and any product issues are caught as soon as possible.
- Other duties as assigned.

Requirements:

- Valid Commercial Driver's License (CDL) with a clean driving record
- Proven experience as a truck driver
- Knowledge of safety protocols and regulations related to transport
- Excellent organizational skills and time-management skills
- Strong communication and interpersonal skills
- Flexibility to work occasional extended hours if needed
- Must be able to read and understand diagrams and blueprints written in English
- Must be able to accurately read an English tape measure
- Must be able to perform basic math skills including adding and subtracting the English measuring system (including fractions)
- Must be able to pass random drug tests

Preferred Skills:

- Demonstrated understanding of the manufacturing/fabrication industry
