

Solar Furnace Training Application

Solar Furnace Training Program information:

Purpose Focused was awarded an EPA Environmental Justice grant to provide Solar Education/Training opportunities to the Dine' to develop the skills and knowledge required to establish community-based capacities in the emerging Clean Energy Economy to build, deploy, install, and maintain Off-grid Solar Technology Solutions for their communities.

Our first Solar Furnace training program is scheduled to begin April 18 and end April 22nd and will be conducted at Red Cloud Renewable Campus in Pine Ridge. Once our local Dine' are trained, (6) certified trainers will be hired to install the Solar Furnaces in the Bodaway Gap communities during the Summer months of 2022.

The EPA EJ grant funding was developed to support students to travel to and from Pine Ridge, it also includes the training costs. Purpose Focused will be purchasing the (12) solar furnace units to be installed by Dine' certified students to install them. The employment is job specific at a rate of \$15.00/hour and will perform as an independent contractor.

Interested applicants must write a couple of paragraphs:

First paragraph; please provide us a brief personal and professional profile describing your solar knowledge and experience.

Second paragraph; please describe why you feel you would be a good candidate for our solar training and green workforce employment program.

PFAL will only consider committed applicants; therefore every applicant will be vetted.
