

FOR IMMEDIATE RELEASE

MODERN ATOMICS TO SHOWCASE INNOVATIVE A.I.-CONTROLLED SHADE POWER SUPPLY AT IWCE

ReaKtor saves 50% on deployment costs and reduces end user carbon footprint by more than 90%

Grapevine, TX, April 11, 2024 - Modern Atomics LLC, a Texas-based company that specializes in developing cutting-edge solutions for motorized window treatments, will be exhibiting its flagship product, ReaKtor™, at the International Window Coverings Expo (IWCE) Conference and Festivals from April 11-12, 2024.

ReaKtor is a state-of-the-art AI-controlled shade power supply that enhances the comfort and convenience of any home or office. ReaKtor uses artificial intelligence to discover the presence of motorized actuators and user control points, remotes and configures them for you which simplifies the deployment. ReaKtor also reduces energy consumption by up to 90% over traditional power supplies by using its patent-pending Molecular Time-Shifting technology. ReaKtor will be available September 2024.

"We're excited to show window treatment professionals how they can deploy motorized shades in a very efficient, cost effective and carbon neutral manner with our new ReaKtor AI controlled shade power supply," said Judy Salazer, Executive Vice President of Operations for Modern Atomics LLC. "We believe that ReaKtor is a game-changer in the motorized window treatment market, and we can't wait to share it with the world."

Modern Atomics LLC will be demonstrating ReaKtor at sessions during the IWCE, located at the Gaylord Convention Center in Grapevine Texas. Visitors will have the opportunity to see ReaKtor in action, as well as interact with the company's team of experts and engineers. Modern Atomics will be holding education sessions for attendees at the show to learn how they can select the most efficient power supplies for their motorized window coverings during the show.

About Modern Atomics LLC:

Delivering Innovation Beyond the Ordinary, Modern Atomics is a technology development company with a proven track record of delivering an A.I.-Based connected home & workplace ecosystem of products to improve productivity and energy efficiency for a wide variety of residential and commercial environments. Founded in 2024 and headquartered in Austin, TX with offices in Singapore, Modern Atomics holds several patents in A.I. based power, control & distributed a/v products.
