

FOR IMMEDIATE RELEASE

## MODERN ATOMICS JOINS BLUETOOTH SPECIAL INTEREST GROUP

Austin, Texas – February 24, 2024 – Modern Atomics LLC, a cutting-edge startup specializing in A.I.-based power and control products, is thrilled to announce its official acceptance into the Bluetooth Special Interest Group (SIG). This milestone marks a significant step forward for the company as it continues to innovate and contribute to the world of AI with its patent-pending Power Distribution Products which include Bluetooth wireless technologies.

The Bluetooth SIG is a global community of innovators, developers, and companies dedicated to advancing Bluetooth technology. By becoming a member, Modern Atomics gains access to valuable resources, collaboration opportunities, and the ability to shape the future of wireless communication.

“We are excited to be part of the Bluetooth SIG community,” said Paul Bryson, CTO of Modern Atomics. “Our team is passionate about developing innovative products that enhance people’s lives, and this membership opens up new avenues for us to achieve that goal.”

Company Identifiers and 16-bit UUIDs: As part of its membership, Modern Atomics has been assigned a unique Company Identifier by the Bluetooth SIG. This identifier allows the company to use the assigned value for various purposes, including LMP CompID, Manufacturer Specific Data, and vendor-specific codecs.

“We are proud to welcome Modern Atomics to the Bluetooth SIG!” said Conner Wright, of the Bluetooth Special Interest Group, Inc., “We are really excited to see how they use our technology within their products.”

Modern Atomics is committed to leveraging Bluetooth technology to create seamless and efficient solutions for its customers. With this acceptance into the Bluetooth SIG, the company looks forward to collaborating with industry leaders, participating in working groups, and contributing to the evolution of wireless connectivity.
