

PDU RACK EARS

1RU

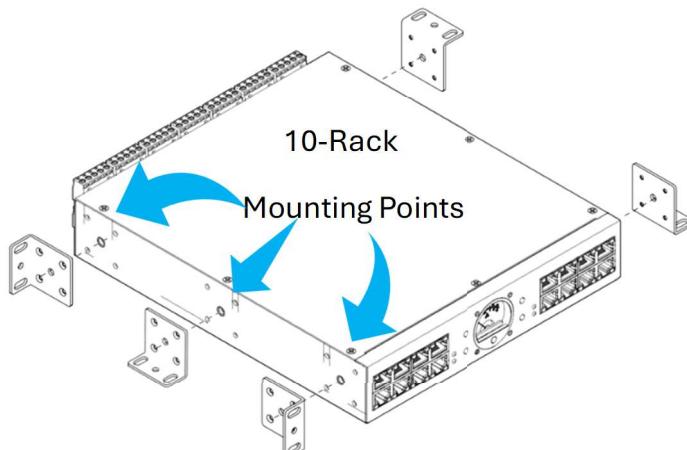

Product Overview:

Rack Ears are used to mount PDU's in Half, and full 19" EIA racks. Three rack ears options allow multiple mount configurations. The RE-1 rack ears are symmetrical and can double as wall or shelf mounting for PDU's or when combined with a 1RU joiner kit will allow two PDU's in a single 1RU rack space.

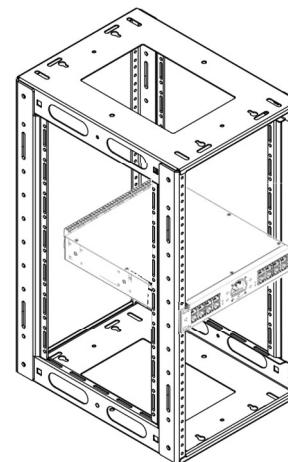

Another popular use is using the rack ears for Mid (relay racks) or rear rack rail support

RE-1 SYMMETRICAL RACK EAR

RE-1 Work for Half Racks

TWO PDU's and many other devices can join for 1RU with joiner kits
