QUICK START BASIC USE:

Tokamak DC-10 is a 10-shade Power Distribution Unit mounted inside a 16" x 12" x 4"

Plenum rated and UL listed enclosure

Remove the 4 screws to gain access to the PDU

QUICK START ENCLOSURE MOUNTING:

The enclosure can be mounted using the 4 mounting holes inside the unit.

Alternatively, some installers will want to screw the enclosure into wall studs on one or more sides. You will need to make your own holes to accomplish this.

QUICK START BASIC USE:

Tokamak DC-10 is a 10 Shade motor Power Distribution Unit and can also be used to harvest energy for Modern Atomics PDU's equipped with Energy Storage Modules or ESMs.

Simply connect the included AC power cable on the bottom right of the chassis.

Make all Shade motor and PDU/User devices connections first, then flip the recessed power switch to on which is located on the rear panel next to the AC power input.

Your Shades are now ready to use.

DC-10 Unit bottom side view

The Included AC cable will need to be carefully routed out one of the punch outs located on all four sides of the enclosure. And all shade wires will also need to be routed into the enclosure through one or more of the punch outs.

INTRODUCTION: MOTOR CONNECTORS

Each of the 10 connectors are 5.08 pitch with 2 positions that can support up to 12AWG wire

Connect the 24V **Positive** (+) from the shade motors to the left terminals marked with (+)

Connect the **Negative** Ground (-) from the shade motors to the right terminals marked (-)

Strip approx. ¼ of dielectric from each wire up to 12AWG and insert into each polarity gate and use a small flathead screwdriver to turn the top screws to close the connector gates down on the stranded wire

Turn clockwise to tighten

For best results ensure the gates are only closed onto the wire and not the dielectric

INTRODUCTION: GENERAL FEATURES

[A] – AC Power LED (Blue =AC Power is on)

[B] – **Optional** Voltmeter

[C] – 8-port 485 PDU/Device Hub

[D] – QR CODE located on side of chassis to Download Installation Manual

[E] – Plenum rated chassis

[F] – 2 position 5.08 pitch shade connectors

[G] – **Optional** AC Power Switch (On is positioned down toward the wall enclosure)

[H] – AC Power input IEC C14 (Compatible with IEC C13 cables)

DC-10 PARTS INCLUDED IN BOX: (Replacement parts sold on website)

 Already Mounted (1) TOKAMAK PDU #TOK-DC-8 / DC-10	#TOK-DC-8 ONLY  (8) 5.08 PITCH TERMINAL BLOCKS # TRM-BLC-5-081	#TOK-DC-10 ONLY  (10) 5.08 PITCH TERMINAL BLOCKS # TRM-BLC-2-081	 (1) 16" x 12" x 4" ENCLOSURE # TKM-16x12x4
 (1) ENCLOSURE LID W/ 4 MOUNTING HOLES #TKM-16x12x4-LID	 (4) LID SCREWS	 (10) CABLE TIES #4-CBL-TS-PAK	 (1) NEMA 5-15P to C13 AC CABLE
		Some SKU's Do not have strain relief On terminal blocks	

This manual is NOT included in the box as part of our SAVE sustainability efforts. We have 3 QR CODE locations on the enclosure for digital downloads of this manual.
