## Instructions

1. Cut out the template square and stick to cardboard or use 4-square hack sheet.
2. Press the fabric and lay it out flat on the table.

### IF CUTTING OUT THE FABRIC PIECE BY PIECE:

1. Lay the template onto your fabric and place a weight on top.
2. Trace around the outside of the template onto the fabric. Repeat this for the towelling fabric.
3. Keeping the fabric flat on the table cut all the pieces.
4. Measure in one-half inch all around for a seam allowance and mark with a pencil on the reverse of both fabric pieces.
5. On one side of the wrong side of one fabric piece make a mark at one inch and another at three inches.
6. Pin or clip the two fabric pieces with right side together (inside) and the markings on the outside.
7. Place the fabric under the presser foot starting your seam at one of the marks on the side.
8. Stitch a couple of stitches forward, reverse and then go forward again to the corner, pivot and then stitch around the square until you reach the other mark close to where you started sewing.
9. Take fabric out of machine and then turn it right side out so that the seams are in the inside.
10. Use the chop stick to gently poke out the corners of your square.
11. Press your work.

12. Pin or clip the open side and top stitch using  $1/4$ " seam (.6mm) around all four sides. Trim threads and press again.

**IF USING 4-SQUARE HACK SHEET:**

1. Place two pieces of fabric right sides together and lay on table.
2. Cut excess (using paper scissors) from the 4-square sheet and lay on top of fabric and pin.
3. Take fabric and pattern to the machine and sew first seam using straight stitch and back stitching.
4. DO NOT sew over the cutting lines.
5. Sew all seams and remove fabric from machine.
6. Lay sewn project on the table and with hand flat on one side of the project, use fabric scissors to cut along middle cutting line.
7. Separate project halves and turn one and cut along the cutting line. Repeat for other half. Remove pinned pattern pieces.
8. You should have 4 separate pieces sewn on three sides.
9. Turn right side out using a chopstick to each corners and press.
10. Turn in  $1/2$ " (1.27 cm) on the open side and pin/clip.
11. Set straight stitch to a longer stitch and mark a  $1/4$ " seam allowance on your machine.
12. Position the project under the machine and slowly top stitch all around four sides.
13. Remove from machine and press.

# SEWING PROJECT 2 - TEMPLATE

Watch the project video and to note important information and the step-by-step instructions.

## Project 2 - Facial Wipe Template

**Cut squares of fabric A and squares of fabric B or use 4-square hack sheet.**
