Instructions

1. Cut out the template square and stick to cardboard.
2. Press the fabric and lay it out flat on the table.
3. Lay the template onto your fabric and place a weight on top.
4. Trace around the outside of the template onto the fabric twice.
5. Keeping the fabric flat on the table cut two pieces.
6. Measure in all around $1\frac{1}{2}$ " (1.27cm) a seam allowance and mark with a pencil on the reverse of both fabric pieces.
7. On one side of the wrong side of one fabric piece make a mark at one inch and another at three inches.

You can embellish the pieces before you sew them together if you wish.

1. Pin or clip the two fabric pieces with right side together (inside) and the markings on the outside.
2. Place the fabric under the presser foot starting your seam at one of the marks on the side.
3. Stitch a couple of stitches forward, reverse and then go forward again to the corner, pivot and then stitch around the square until you reach the other mark close to where you started sewing.
4. Take fabric out of machine and then turn it right side out so that the seams are in the inside.
5. Use the chop stick to gently ease out the corners of your square.
6. Fill your square with stuffing (see video for suggestions) until plump.
7. Use ladder stitch to close the gap.
