

Fabric Bolt

F

A fabric bolt is the way that fabric, (other than heavy weight or upholstery fabrics which are sold on the roll) is presented and sold. Fabric which is usually 36" (91cm) or 44" (112 cm) wide is folded and wrapped around a board about 10" (25cm) wide and the height of the folded fabric. When bolt fabric is purchased it is taken off the card and cut. The folds of the bolt can be seen below.
