

Author: Robert D. Rice II

“Robert Rice took five pieces of history in his short-story collection and rewrote them with some fictionalized characters and fictionalized twists and turns to make the reader re-think these historical events. A well-written, well-developed and well-thought out book that creates strong emotions and feelings for the main characters from sympathy to sadness to disgust. I read three of the five short stories...Lastly, this book will probably appeal to historical buffs.

Robert D. Rice II is a great writer... I rate the book: 4 out of 5 stars”
