

# Net Neutrality Protection Act

## Section 1: Title

This bill shall be known as the "Net Neutrality Protection Act".

## Section 2: Purpose

The purpose of this bill is to ensure that all internet traffic is treated equally by internet service providers (ISPs), without discrimination or favoritism.

## Section 3: Definitions

(a) "Internet Service Provider (ISP)" means any entity that provides internet access to users.

(b) "Net Neutrality" means the principle that all internet traffic should be treated equally by ISPs.

## Section 4: Prohibition on Discrimination

(a) ISPs shall not discriminate against lawful internet traffic on the basis of content, source, or destination.

(b) ISPs shall not engage in paid prioritization.

## Section 5: Transparency Requirements

(a) ISPs shall publicly disclose accurate information about network management practices, performance, and commercial terms.

(b) ISPs shall provide consumers with clear info on any practices affecting their use of the internet.

## Section 6: Enforcement

(a) The FCC shall enforce this Act and investigate complaints.

(b) Violations may result in penalties and fines.

## Section 7: Severability

If any part is held invalid, the remainder remains in effect.

## Section 8: Effective Date

Effective 90 days after enactment.

## Section 9: Sunset

This Act remains in effect unless superseded.
