

Ellis' Tea Bar

Tea of the Month

Caramel Macchiato

The Autumn favorite captured in a cup of tea. Smooth and creamy caramel is blended with strong black tea for a delicious sip that's excellent with milk and sugar. When you need a break from the latte world, step over to this smooth tea blend. *Ingredients: Black tea, caramel, hazelnut*

Holiday Specials will return in December.

Delicious Teas!

Earl Grey Creme [Caffeinated]

Earl Grey Creme Black Tea is easily our best seller. This amazing tea takes the classic Earl Grey with oil of bergamot and combines it with a touch of vanilla. Earl Grey Creme Black Tea is a perfumy delight for the senses. It's the perfect combination of sweet and fruity. The addition of blue Cornflowers make this tea not only delicious but lovely to look at, too.

Berry Blast

Berry Blast Herbal Tea is an all-natural way to satisfy your sweet tooth. Berry Blast Herbal Tea is a caffeine-free and gorgeous blend of fruit and botanicals. With black currants, cranberries, raspberries, elderberries, bilberries, hibiscus flowers and rose hips, Berry Blast Herbal Tea is a great choice for adults and children. Like lemon? Try berry blast with lemon sugar!

Matcha [Caffeinated]

Our matcha is finely ground Japanese Tencha and a great choice for both drinking and culinary uses. Matcha offers tremendous health benefits. When you drink matcha, you ingest the entire leaf and receive 100% of the nutrients of the plant. When you consume traditional green tea, you are only drinking what is extracted by the water. Matcha has 137 times more antioxidants--including EGCG than regularly brewed green tea. One cup of Matcha equals ten cups of regularly brewed green tea in terms of nutritional content.

Matcha Latte [Caffeinated]

Our matcha is finely ground Japanese Tencha and a great choice for both drinking and culinary uses. Matcha offers tremendous health benefits. When you drink matcha, you ingest the entire leaf and receive 100% of the nutrients of the plant. When you consume traditional green tea, you are only drinking what is extracted by the water. Matcha has 137 times more antioxidants--including EGCG than regularly brewed green tea. One cup of Matcha equals ten cups of regularly brewed green tea in terms of nutritional content.

Add-Ons

Lemon Sugar

Bright and lively, we are in love with this sugar! Use it to rim cocktails or a glass of lemonade. We love it for a little crunch on a whipped cream-topped lemon icebox pie. Use it for sweetening summertime iced tea or to give blueberries an extra burst!

Cane Sugar

Delicious sugar derived from cane sugar stalks.

Honey

Just your good ole honey

Vanilla Powder

Madagascar Bourbon Vanilla Beans are split and the rich, fragrant seeds are combined with superfine sugar to create this decadent Vanilla Bean Powder.

Milk

The stuff you drink from a cow.
