

Overview Profile

Sacred Heart of Jesus Medical Outreach Australia (SHOJMOA) was established on the first Friday of October 2004 at St Kevin's Catholic Church, Dee Why NSW Australia, as multicultural prayer and later became a registered association in Australia. The compassionate Heart of Jesus is the main point of its spirituality in reaching out to cancer sufferers and heart patients and their families.

It was organized by a group of people from diverse backgrounds and different parts of the globe. The common love of the Sacred Heart of Jesus had brought them together to start the first Friday of the month Devotional Prayers and Mass to the Sacred Heart of Jesus dedicating their petitions to those suffering from cancer and heart illness. Believing that cancerous diseases destroy the very fabric of our being and the power of man, man can do more, then our first recourse is to find refuge in the source of all grace, the Merciful Heart of Jesus.

The primary aim of Sacred Heart of Jesus Medical Outreach Australia (SHOJMOA) is to be the network to outreach the propagating love of Jesus, by promoting the Devotional Prayers and Mass to the Sacred Heart of Jesus every first Friday of the month in Australia and other countries.

Sacred Heart of Jesus Medical Outreach Australia (SHOJMOA) aims to be an instrument of encouragement and inspiration to cancer sufferers, heart patients and their families through the establishment of Sacred Heart of Jesus Medical Outreach Australia Resource Centre's in other countries.

The (SHOJMOA) Resource Centre will be the place to facilitate the Propagation of Devotional Prayers and Mass to the Sacred heart of Jesus on the first Friday of every month. It will be a place of friendship and camaraderie among cancer sufferers and heart patients and their supporters, who can share the "ups" and "downs" of living life with cancer and/or heart disease, where laughter and tears, joys and pains, scars and miracles can be shared with one another.
