

B M INTERNATIONAL PUBLIC SCHOOL, HAVERI

DETAILS OF CURRICULUM

The curriculum of BMIPS is as per the requirement of 21st century and with the reference to the guideline of National Curriculum Frame work. The curriculum practices in our school are learner centric. Our teachers ensure an atmosphere for students to feel free to ask questions. They promote active learning among students with a focus on reflections, connecting with the world around them, creating and constructing knowledge. The role of teacher is that of a facilitator who would encourage collaborative learning and development of multiple skills through the generous use of resources via diverse approaches for transacting the curriculum. Arts are also integrated in teaching. Teachers are instructed to attend to the individual difference of students by diagnosing and modifying their curriculum planning.

Subject wise and class wise annual curriculum overviews are designed by the subject teachers. This document breaks down the academic curriculum for coverage during the session in each grade. It briefly outlines the month wise curriculum to be transacted by the subject teachers with notes on activities and assessment schedules for various Periodic Tests. Separate annual curriculum plan is prepared at the beginning of a new session after through discussion among the teachers, for every class.
