Shannon Fusco, Principal

To Whom it May Concern,

The North Port High School Cambridge Advanced International Certificate of Education (AICE) program, part of the University of Cambridge, provides high school students with access to a wide range of college-level curriculums and credits. The goal of the program is to prepare students for life, helping them develop an informed curiosity and a lasting passion for learning. Students who take a minimum of seven AICE courses in specific categories and pass the corresponding rigorous international examinations can earn the prestigious AICE diploma, which qualifies students to earn the Florida Bright Futures 100% tuition scholarship.

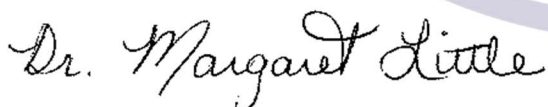

As a non-profit organization, we devote our resources to delivering high-quality educational programs which unlock students' potential.

We need your support to show the students in the AICE program how much we appreciate their hard work. With your donation, we can continue advancing the growth and success of the AICE program at North Port High School. Funds raised will help offset the cost of activities, events, trips, and recognition, including a banquet for our graduating seniors.

We greatly appreciate your donation. It will show all our fantastic students just how much we value their dedication to their academic careers.

If you wish to contribute or have any questions, please call or email the AICE Coordinator or Administrative Assistant using the contact details below. We would be happy to provide you with more information about how you can help support our work in the Cambridge AICE program at North Port High School.

Sincerely,

Dr. Margaret Little
AICE Coordinator
