

BELIEVE IT OR NOT

My Childhood

As a child I grew up witnessing domestic violence and sexual abuse. Ever since I can remember my parents were always fighting. My mother was always crying and my dad was an abusive man who was a womanizer, an alcoholic, and the most scary person I ever met.

As A Teenager

when I was 14 I made the most important and most powerful decision of my life. I decided in my mind and in my heart with all my might that if I ever got married I would get married to the love of my life. To make sure, I wrote a letter to God, asking that I find my Soulmate. My letter was clear & specifically described all the aspects of what my Soulmate would look like, think like, and the qualities I would find in him. I thought about finding him and fantasized about a life with him. I trusted I would find him. At 23 I found him in another country & married him. Our honeymoon was in Hawaii and have moved there twice. Our life is an adventure!!

When my husband was 14 years old, he also wrote a letter to God asking God to help him find and take care of his future wife. He also believed in finding his Soulmate to marry and keep her for the rest of his life.

My husband and I only dated for one week because I was visiting another country (El Salvador) and I was only there for a limited time.

During the time we met, my husband had a car accident and could have died, but survived!

We wrote love letters to each other for 5 months (having a long distance relationship no one believe in)
We got married after 6 months and have been happily married for 27 years!

Treated Like a Queen!

My husband cooks and brings me food in bed even after 27yrs of marriage!!
