

SCOTT  
**RICHARDSON**  
REPUBLICAN STATE REPRESENTATIVE

July 5, 2022

**Rogers - State Representative Scott Richardson (R-Bentonville) announced he will seek re-election to the Arkansas House of Representatives, on Wednesday.** “Voters elected me to lead the fight for the values we care about in Northwest Arkansas- better education, better jobs, and less government intrusion in our lives. I’m very proud of my record on these issues and am looking forward to continuing to fight for District 13,” Richardson said.

In 2023, Richardson sponsored legislation to improve education, reduce taxes and burdensome regulations, improve public safety, and increase voter integrity. Richardson said he is willing to take on tough issues to find workable solutions. “We still have many opportunities in our state to do more, but today we are better because of the things we accomplished during the 2023 regular session”, he said.

Scott pledged to continue to focus on providing relief to struggling families. “Under the Biden administration, we have skyrocketing prices and historic inflation which is making it difficult for Arkansans to make ends meet. I was proud to support 130 million in income tax relief, so Arkansans can keep more of their hard-earned money. We need to continue to work toward eliminating the state income tax and I will continue to fight to reduce the property tax burden on Arkansans,” said Richardson

Representative Richardson serves on the following legislative committees: Public Health, Welfare and Labor; City, County, Local Affairs; Advanced Communication and Information Technology<sup>1</sup>; Arkansas Legislative Council<sup>1</sup>.
