

OUTSIDE CONTRACTORS

No outside contractors or labor are allowed in the boat yard without prior written Marina approval. Contractors must submit proof of insurance per Slip Agreement (page 4, section 12) and complete a Customer Project Notification form.

Boat Owner's subcontractors must register at the Marina Office before starting work, provide compliant insurance naming Marina as additional insured, and follow all laws and best practices.

A facilities fee may apply for onsite services using marina resources such as water, electricity, trash, parking, job oversight, insurance, administration, or yard help.

These rules are set by Tradewinds to protect the Marina, its customers, and the environment.
