

Station Art Sprint

17.09 - 19.09

Challenge

Explore art styles for Google Station experiences, positioning different surfaces across the suite of products

Sprint Goals

- 1. Identifying defining moments (CP2 loading, Error states etc.) [P0]
- 2. Exploration of Art direction [PO] (Aurelie to check mid-sprint and end sprint)
- 3. Exploration of strategy for this Art Direction [P1]
- 4. Art Direction/Brand consistency/system
- 5. [P2] Brand architecture alignement

02

Astro+Geo Kinetic

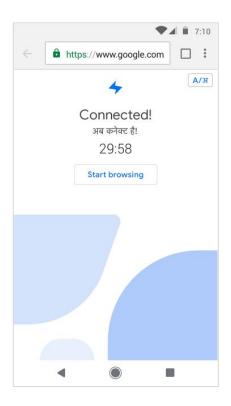

(a very vague concept)

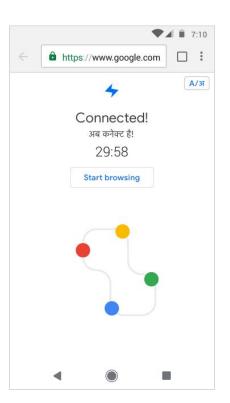

A combination of an abstract-style environment and having as mascot as 2 parts of the narrative.

This idea emerged as a solution to accomodate to spaces where one central idea might not be versatile enough for such variety of platforms. The two ideas creates a moment of surprise to the story.

03

Brandimals V.2

Illustrations: Animal characters

Animals showcase a diverse range of characters without using signifiers of race, gender or class.

Look clean and modern, without feeling too digital.

Easily customized to show different use cases. Simple, Googley, yet unique.

Delightful, but not juvenile. Wild animals used instead of farm. Playful.

GOOGLE STATION BRAND IDENTITY OCTOBER 2017

Trustworthy

Up front about why we ask for personal information.

Approachable

Friendly, easy to talk to, and even easier to find.

Original

A fresh and relevant approach—in form and function.

Playful

Bright language and visuals help keep the experience light.

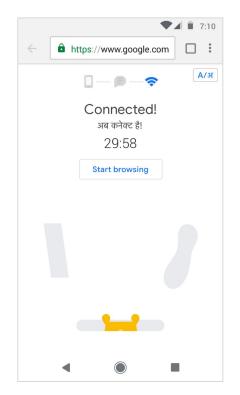

In this animal tech-tag team, each of them embodies a different Station brand and product value.

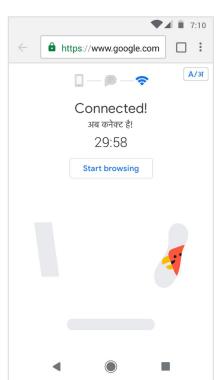

Fast + Relevant = Rabbit

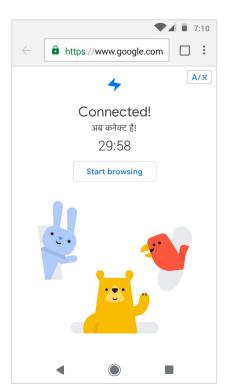

Trustworthiness + Strength = Bear

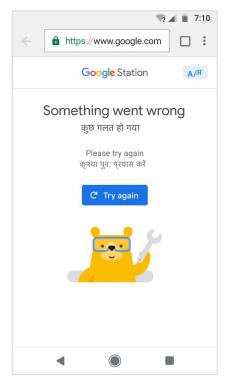

Approachable + Freedom = Bird

Round.2 Designs

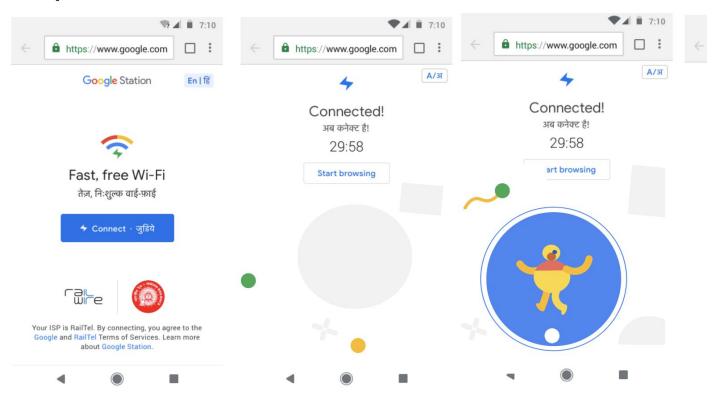

Discovery

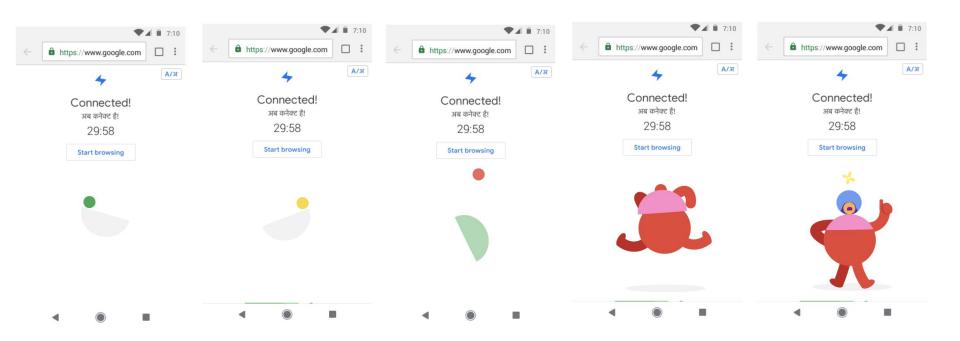

This concept the simplifies the astronaut concept by refining it down to a more basic appeal focused on exploration and discovery.

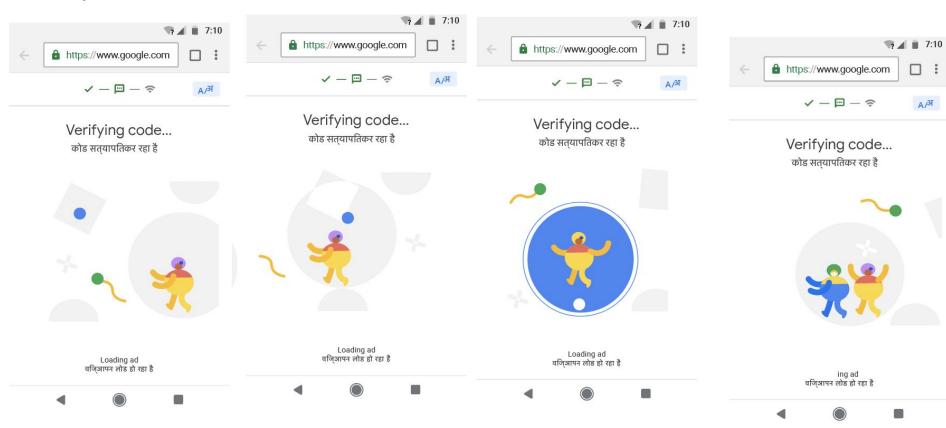

The illustrations live in a abstract geometric space with interacting shapes and characters.
Characters are composed of geometric shapes as well and can construct and deconstruct themselves at will in delightful ways

Captive Portal

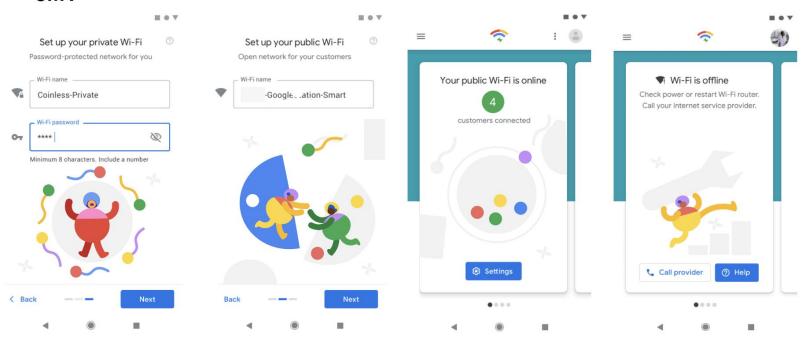

In the examples above the ball drops on a yellow dot allowing the explorer inside to pop up and get rolling
