Lasting Impact

The Boys & Girls Club of Denison is dedicated to providing a program experience that will enable its members to build a life style that will:

- Support Academic Success
- Develop Character and Leadership Development Skills
- Understand what a Healthy Life Style is

It is reported that 46% of all children attending school are bullied, and that 1 in 3 are overweight or obese. In our community 69% of our school students are receiving free and reduced lunch assistance.

Each day Club members are attending programs that are designed to help them achieve in math, reading and science skills. They are experiencing programs that teach them how live a healthy life style, develop physical and mental skills that will assist them as they grow and develop. They are taught to treat each other with respect, how to resist bullying and how to become a contributing member of our community. To measure how our members feel about their Club experience they are given the opportunity to participate in a Club assessment. The initial results of this assessment says:

- 97% reported that they feel safe while attending the Club
- 80% reported that the Club experience is fun
- 88% reported that they have a positive relationship with a Club staff member
- 96% reported that the staff have high expectations to achieve
- 79% reported that they are recognized for their achievements

By supporting the Texoma Striper Challenge you are investing in the program strategies that are being developed to provide a quality program experience that has meaning and is measurable. The 1135 boys and girls who attend the Club thank you, for you are making a difference in their lives.
