

## Getting Your COVID-19 Vaccine – New information rev 3/1/21

The State of CT has now established a new eligibility schedule for CT residents. The remaining dates of eligibility are:

March 1: people age 55-64; educators and child care workers

March 22: people age 45-54

April 12: people age 35-44

May 3: people age 16-34

There are different ways to make an appointment. Each method has pros and cons. (Call us if you need to learn which option might be best for you) For most statewide options (including CVS, Walgreens and Walmart stores), please start at the CT COVID-19 Vaccine Information website at <https://portal.ct.gov/Vaccine-Portal>. Enter your zip code and find options in your area along with links for registration. At this time, the only method to make appointments at CVS, Walgreens and Walmart is to go online; no phone appointments are available. For Pomperaug District Department of Health local clinics, start at <http://pddh.org/>.

Alternatively, call the **CT COVID Vaccine Appointment Assist Line at 877-918-2224** seven days per week from 8:00 a.m. to 8:00 p.m.

Please call **Woodbury Senior Center at (203) 263-2828** if you need further assistance. We're here to help you know your options and find your appointments. Also, we are contacting people via phone and email when new clinics are announced in our area or other major changes occur in the vaccine process. Be sure we have your phone number and/or email address to stay informed.
