

## Getting Your COVID-19 Vaccine – New information rev 3/19/21

The State of CT has now established an eligibility schedule for CT residents. Currently, people age 45 and older are eligible, along with educators, childcare workers and healthcare workers. All CT residents age 16 and up will be eligible as of April 5, 2021.

There are different ways to make an appointment. As more technologically savvy people seek appointments, most appointments are found online.

### Using a computer to make your appointment:

- **Start your search at the CT COVID-19 Vaccine Information** website at <https://portal.ct.gov/Vaccine-Portal> Enter your zip code and find options in your area along with links for registration.
- Find an appointment at **CVS** (no account needed) or **Walmart or Walgreens** select stores (account needed). Again, you can find these pages quickly when you begin at the state portal listed above.
- **Pomperaug District Department of Health (PDDH)**, while currently fully booked, may possibly have appointments in late March. Check their website frequently for more information: <http://pddh.org/>

### Using a phone to make your appointment:

- If you don't use a computer, call the **CT COVID Vaccine Appointment Assist Line at 877-918-2224** seven days per week from 8:00 a.m. to 8:00 p.m. Leave a message and receive a return call within hours to days, depending on call volume. You can then choose from available appointments in your area
- **Woodbury Drug** is providing vaccine appointments. Call **203-263-2282** to be put on the waiting list.
- **Pomperaug District Department of Health (PDDH)**, while currently fully booked, may possibly have appointments in late March. Call **203-264-9616**.

Note: many of the phone listings we've curated in the past weeks for making appointments have been discontinued as most older adults have found their vaccine appointments. At this time, your best bet for a phone-based appointment is one of the two options listed above.

We are here to help. If you, as an older adult, are still seeking a vaccine appointment without success, please call Woodbury Senior Services at **(203) 263-2828**. We are also asking that Woodbury residents of any age who are homebound and wish to receive the vaccine call the Center.
