

Discover the Ancient Technology of the Drum!

The experience of drumming and rhythm demonstrates the power of building a successful team. Each team/tribe member receives his or her percussion instrument and embarks on a rhythmic, transformative experience of self-discovery and the unlimited potential of the group.

Groups of drummers play different parts to complete the whole sound of complex rhythms. Participants learn fundamentals and build confidence—groove, techniques, etiquette, listening, dynamics and cross-communication. The universality of the African drum unites people from diverse cultures, communities, businesses and nations.

A Successful Team:

- ✓ Has a centered and focused orientation
- ✓ Works together and is supportive
- ✓ Is confident, trusting and good at listening
- ✓ Has effective leadership
- ✓ Develops the ability to resolve conflict
- ✓ Promotes self-empowerment and motivation
- ✓ Shows an ability to manage change
- ✓ Manifests accountability and responsibility
- ✓ Balances creativity, structure and harmony
- ✓ Builds shared visions, goals and effective policies
