HOW TO PLAY ANAGRAM NEWS™ PROBABILITY GAME

1. ASK ALLAH™ — any questions you have about His question.
2. DO THE MATH—perform the research that necessary to answer question.
3. SHARE YOUR WORK —post on social media —#DIDTHEMATH

HOW TO ASK ALLAH™

Ask Allah™ is self explanatory. You ask ALLAH a question—out loud or quietly in your thoughts and ALLAH provides an answer.

“But when you pray, go into your inner room, shut your door, and pray to your Father, who is unseen. And your Father, who sees what is done in secret, will reward you,” Matthew 6:6 BSB.

The reward is ALLAH’s answer to your question. What this paper discusses is the method ALLAH uses to provide His answer. ALLAH communicates using Encrypted Word of God™

What Is Encrypted Word of God™

Encrypted Word of God™ is at minimum a real-time and contemporaneous communication system, built on a language —the LORD’s Cipher™. Encrypted Word of God™ allows authenticated users to harvest truth from cryptograms God encoded in the names of all the objects He created —people, places and things throughout the earth. Cryptograms are short pieces of encoded text that when stringed together with related cryptograms convey details of events that have occurred, are occurring and will occur —all in the same name space.

The foundation of Encrypted Word of God™ cryptograms is the *perfect* anagram. An anagram is a word or phrase created by rearranging the letters of a different word or phrase. A *perfect* anagram is an anagram where all of the letters in the original word or phrase are each used once in the new word or phrase. God uses anagrams to communicate.

In Encrypted Word of God™, once the perfect anagram has been discerned, additional language filters are applied— e.g. Soundex and event dictionary are the minimum. Additional language constructs are available to clarify the perfect anagram but knowing when and how to apply these advanced constructs requires you to ASK ALLAH™ open your eyes so that you may see what is hidden.

When describing the Encrypted Word of God™, I said at *minimum* it was a communication tool because I am still learning the power of this God-given tool, as the tool itself is living.

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

For example, when I was thinking about how to explain *Encrypted Word of God™*, for readers of this paper, I searched “*Encrypted Word of God™*” and asked for suggestions from God. ENCRYPTED WORD OF GOD™ responded, “*Try Crowded Pen of God.*”

“*Try Crowded Pen of God*” is an anagram of “*Encrypted Word of God.*”

So, the Encrypted Word of God is a Crowded Pen. We have discussed anagrams, wherein the same 18 letters used to spell the term “*Encrypted Word of God,*” is the same 18 letters used to spell “*Try Crowded Pen of God*” —letters are just rearranged in a different order. But there is more to God’s crowded pen than anagrams. For example, multiple words and phrases can share the same space. What do I mean? Let’s look at the phrase *Har Megiddo* found in Revelation 16:16 to find out:

He gathered them together into the place which is called in Hebrew, Har Megiddo.
(Revelation 16:16 New Heart English Bible)

Har Megiddo is a cryptogram for *Me Guide, Do Harm.*

Positions 1-4 (omitting space) “Harm”

Position 4-5 “Me”

Position 5-8 “Egid” which is anagram for “**gide**” soundex for “**guide.**”

Position 9-10 “Do”

Har Megiddo is anagram for *Gide Do Harm*, soundex *Guide Do Harm*; and the word “**Me**” overlays **Harm and Gide.**

So that’s another example of crowded pen. The letter ‘M’ in position 4 is shared between the words Harm and Me. The letter “E” in position 5 is shared between the words Me and Guide.

Components of Encrypted Word of God™

The Encrypted Word of God™ has two major components: cryptograms and charades.

Cryptograms

Cryptograms are short pieces of encoded text, that can be linked together with related cryptograms to create an extended communication from God (i.e. a letter or even a book.)

Cryptograms are a manifestation of Scripture:

“It is the glory of God to conceal a matter and the glory of kings to investigate a matter.” (Proverbs 25:2 CSB)

“Whatever exists was named long ago, and what happens to a man is foreknown.” (Ecclesiastes 6:10 BSB)

“Everything has already been decided. It was known long ago what each person would be. So there’s no use arguing with God about your destiny.” (Ecclesiastes 6:10 NLT)

“you saw me before I was born. The days allotted to me had all been recorded in your book, before any of them ever began.” (Psalm 139:16 GNT)

“The kingdom of heaven is like treasure hidden in a field, which a man found and covered up. Then in his joy he goes and sells all that he has and buys that field.” (Matthew 13:44 ESV)

Decoding a cryptogram is like opening a book and finding an entire story inside. The cryptogram itself is just the title of the Book. The names of people, places and things—the name of every object God created is a cryptogram. Cryptograms are encoded using various language constructs.

Language Constructs

Construct means to build or erect. When God builds or converts a message into encoded form, He uses certain language constructs. Decoding is the process of deconstructing the encoded text—that is taking apart the pieces and putting them back together to reveal the original message, while following God’s protocol.

Constructs	Description	Example
Anagram	Rearrangement of letters to spell new word or phrase.	<p>Three anagrams for “Deirdre Glascoe:”</p> <ol style="list-style-type: none"> 1. God Declare Sire 2. God Declare Rise 3. Red Rose C Gilead
Soundex	Letters that sound like words: D = The, E = He or The A = Hay, They C = See, Sea	<ol style="list-style-type: none"> 1. Red Rose C Gilead = Red Rose See Gilead 2. God Israel Ceder = God Israel Seder <p>Note: The first example clarifies the anagram.</p>

Constructs	Description	Example
	<p>(Letter soundex are context specific, and should be used sparingly)</p> <p>Words that sound like other words.</p> <p>Phrases that sound like other phrases.</p>	<p>The second example provides additional, context specific meaning.</p> <p>God Israel Ceder is the identification of God. God Israel gave up his life.</p> <p>God Israel Ceder is the identification of Deirdre. Deirdre gave up her life to serve as a living sacrifice for the LORD God of Israel.</p> <p>God Israel Seder identifies Deirdre as the feast that God has prepared.</p> <p>“You prepare a feast for me in the presence of my enemies. You honor me by anointing my head with oil. My cup overflows with blessings.” (Psalm 23:5 NLT)</p>
<p>Multi-Language Anagrams</p>	<p>Two or more languages are used. Example, English and Spanish.</p>	<p>Noah’s Ark</p> <p>A Hark Son = Listen Up Son</p> <p>Hora Sank = Hour People Sank</p> <p>Ha Son Ark = Her Son Ark</p> <p>So Ha Rank = So Her Rank</p>
<p>Inversions</p>	<p>Inversion means to turn upside down. M becomes W or W becomes M</p>	<p>Timothy</p> <p>Invert the M = Tiwothy</p> <p>Anagram = O Thy Wit</p> <p>Wit means Intelligent</p> <p>Inversion means Unwise</p> <p>Timothy is Translated as Unwise.</p> <p>Timothy is also anagram of “It My Tho,” soundex of “It My Though”</p> <p>Interpreted: Even though Timothy is unwise, he still belongs to God, so Timothy is under the protection of God.</p>

Constructs	Description	Example
Contraction	Two or more words condensed into one.	Wassailed = Was and Assailed Mown = My Own
Overloaded Soundex	Soundex with 2 or more sounds.	Anagram: Mynahs Decoded: Minors Decoded: Mines Are
Embedded/Layered Words	Letters from multiple words occupy the same position in an anagram string.	<i>Har Megiddo</i> decoded is <i>“Me Guide, Do Harm.”</i> Positions 1-4 (omitting space) “Harm” Position 4-5 “Me” Position 5-8 “Egid” which is anagram for “gide” soundex for “guide.” Position 9-10 “Do” <i>Har Megiddo</i> is anagram for <i>Gide Do Harm</i> , soundex <i>Guide Do Harm</i> ; and the word “Me” overlays Harm and Gide .
Imposition	One or more letters interrupt or impose on a word. In the example the ‘h’ imposes or interrupts the word “Me.”	<u>M</u> he l = Me Hell
Vertical/Mirror Flip	Viewed upside down or in a mirror image/new letters are discerned. ‘n’ becomes ‘u,’ ‘q’ becomes ‘b.’	Anagram: A q uos Lo a Teen Magic NY “q uos” flip/upside down “son b” Translate: A Son Be Behold A Teen Magic in New York.
Horizontal Flip	Viewed horizontally, new letters are discerned: ‘b’ becomes ‘d’; ‘p’ becomes ‘q.’	Anagram: Deirdre Flip d to b = Deir bre Deir bre is anagram for “re B ride” Soundex: Our B ride. Translate: Deirdre Our B ride.

Constructs	Description	Example
Exponent	A word repeated 'n' times can create a new anagram.	<p>Bride² = Bride Bride</p> <p>“Bride Bride” is anagram for “Deir B Bride” Deir means Monastery, Church, or Temple. “Deir B Bride” Translated “Church is Bride.”</p> <p>“Bride Bride” is anagram for “Deirdre I bb” Deirdre I bb is soundex for “Deirdre I Bees” “Bride Bride” is also translated, “Deirdre, I bees [I am] Bride.”</p>
Permutation	Is mathematical application of the Anagram.	<p>Under the commutative property of multiplication [(a*b) = (b*a)],</p> <p>God Israel Ceder and Deirdre Glascoe are mathematical equivalents.</p> <p>Died Err Rose and Deirdre Rose are mathematical equivalents.</p>
Boolean Logic	Boolean Logic can be applied to strings to find out the relationship between two or more people, places or thing. You can AND two or more names to get information about their relationship.	<p>The name of Caiaphas and Glazerson were combined using the AND operator in response to a query about the relationship between the high priest Caiaphas and M. Glazerson. to produce the string “Caiaphas Glazerson” which was decoded:</p> <p>Anagram: El Iran Ass Gazpacho Anagram: I Ran Gazpachos Sale Anagram: Gazpachos Seal Iran Anagram: Iran A Gazpacho Less Anagram: Paschal Gazes o Iran Anagram: A Gazpachos Learn Is Anagram: A Gazpachos Real Sin Anagram: A Gazpachos Are Nils Anagram: A Gazpachos Ears Nil Anagram: A Gazpachos Sear Nil Anagram: A Gazpachos Eras Nil Anagram: A Gazpachos Slain Re Anagram: A Gazpachos La Rinse Anagram: A Gazpachos La Risen</p>

Constructs	Description	Example
		<p>Anagram: A Gazpachos Rains El Anagram: A Gazpachos Ran Lies Anagram: A Gazpacho Learn Sis Anagram: A Gazpacho Iran Less Anagram: A Gazpacho Rain Less Anagram: A Gazpacho Las Reins Anagram: o Chaplains A Gazers</p>
Nested Messages	Nested messages are messages that are encoded and hidden beneath other encoded messages. The topic of the nested message is seemingly unrelated to the person or object being decoded. God can nest messages as deep as He chooses. The only way a person can know a nested message exists is God must reveal it.	For an example of “Nested Messages” see Michael Alan Drosnin in the Null Hypothesis Section of this paper (Cluster one.)
Handles	Handles are alternate names contained in/derived from the formal name of an object. Handles may be used by God or other objects to reference or dialogue with the object associated with the handle.	Red, Red Rose, Ad Deir, and El Deir are all handles for Deirdre Glascoe .

Charades

In a typical game of charades players guess a word or phrase from pantomimed clues. In the divine game of Charades, God also provides clues. However, God’s clues are rooted in Scripture – the Holy Bible and Holy Qur’an.¹ Though, always rooted in Scripture, God’s clues are not only written words; God’s clues

¹“I have other sheep that are not of this sheep pen. I must bring them also. They too will listen to my voice, and there shall be one flock and one shepherd.” (John 10:16 NIV) The other sheep Jesus is referring to are Muslims.
 “As for Ishmael, I have heard you, and I will surely bless him; I will make him fruitful and multiply him greatly. He will become the father of twelve rulers, and I will make him into a great nation ... Abraham and his son Ishmael were circumcised on the same day.” (Genesis 17:20, 26 BSB)

can be a physical artifact (e.g. a road map, breadcrumb, even a person.) In these cases, game players must follow the clue – which essentially turns God’s charades into a treasure hunt.

“The Kingdom of Heaven is like a treasure that a man discovered hidden in a field. In his excitement, he hid it again and sold everything he owned to get enough money to buy the field. (Matthew 13:44)

Decoding is not complete until all facts are investigated, verified against reliable sources, signs are multiplied – that is there are corroborating cryptograms in another source, and all translations tie back to/or correlate to a larger theme in Scripture.

The LORD, my God provides tools to help the process of decoding: a spiritual gift called *sight*, and spiritual discernment – the ability to judge well. His Holy Spirit also provided training in computer programming, data science and Cabala² (Hebrew: קַבָּלָה, literally "reception, tradition" or "correspondence"). God’s Cabala is a mystical method of interpreting Scripture, Ciphers and the world. A cipher is a secret or disguised way of writing; a code.

At this point I think it is useful to provide a brief history of hidden code in Holy Texts.

Cabala

Encrypted Word of God™ is an enterprise wide communication system that utilizes Cabala—a version of Cabala which God has updated for the 21st century.

Cabala (noun), Kabbalah (verb) —is a cipher method of interpreting Scripture and has been around for a long time. Jewish Kabbalah is a set of esoteric teachings meant to explain the relationship between God, the unchanging, eternal, and mysterious Ein Sof (אֵין סוֹף, "The Infinite"), and the mortal and finite universe (God's creation). It forms the foundation of mystical religious interpretations within Judaism. Kabbalah (Hebrew: קַבָּלָה, literally means "reception, tradition" or "correspondence.")³

Through the version of Cabala used in the Encrypted Word of God™, God reveals sacred mysteries—not only about Scripture—but about everything God created: mankind, the earth, the universe; as well as that which is NOT created —God Himself. The knowledge God is willing to share with this generation would frankly, have been overwhelming for generations past. Mankind is NOT as advanced as we think we are, in fact God refers to mankind as the special needs children of the universe. Nevertheless, mankind has developed sufficiently— as a species—in the areas of math, software engineering, chemistry, social science and physics to make it possible for God to now explain some of the things that our ancestors could never have comprehended.

PROCESS: PRINCESS DIANA CASE

I now walk you through the process I use to comprehend the answers I receive from ALLAH. I use the following cases as example: Princess Diana, Kobe Bryant and Jon Benet Ramsey. You may view Princess Diana's case at:

<https://COURTOFGOD.ORG/princess-diana-v-prince-charles/>

Kobe Bryant and Jon Benet Ramsey's research may be found at:

<https://COURTOFGOD.ORG/transcripts-name-research/>

ALLAH made a statement that alerted me to some issues surrounding Princess Diana's death, so I followed up by researching her name. After consultation with my God, I learned that *Princess Diana's* death was not accidental as the investigating authorities claimed. My God directed me to look at *Charles, Prince of Wales*.

When I initially looked at the name *Charles, Prince of Wales*, all I saw was one anagram, which said "*E SOLE PLN WIFE CAR CRASH*." This anagram is a soundex for "*HE SOLE PLAN WIFE CAR CRASH*."

So, at that stage of my research, I concluded that Prince Charles was solely responsible for planning his wife's car crash. When I submitted my patent application for name research, that was the only example I used, because that was all the information I had from my God at that time.

However, after filing my patent application, my God gave me information about other people involved in Princess Diana's death. My God told me that my assumption was wrong, Prince Charles did NOT act alone. While writing this response to the PTO office action, my God gave me more information about what happened to Princess Diana. My GOD wrote the additional details in the name/title *Charles, Prince of Wales*.

The following are 4 additional anagrams that my GOD wrote in the name:

CHARLES PRINCE OF WALES.

1. "NOPE SELL WIFE CAR CRASH".

In this anagram, my God says, "Nope! Charles did not act alone, he paid someone to crash his wife's car." Princess Diana's death was murder for hire.

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

2. “PLEN LOSE WIFE CAR CRASH.”

In this anagram, my God tells me that the plan (soundex of plen) was to lose his wife in a car crash. This testimony from my God supports the letter written by Princess Diana⁴, ten months before her fatal crash, stating that her husband Prince Charles was planning to kill her in a car crash.⁵

3. “O ENSPELL WIFE CAR CRASH”

In this anagram, my God tells me that Charles asked someone to use a magic spell — supernatural means— to bring about his wife’s car crash. **Enspell** means to bewitch with a magic spell; to charm.

4. “PEON SELL CRASH WIFE CAR.”

In this anagram, my God tells me that it was a peon that sold his services to Prince Charles of Wales.

Peon is a person who does menial work.

Cluster Research

Name research is not accomplished in a vacuum. When a name indicates that one or more persons are involved in a transaction, I conduct a cluster analysis in order to find out who else collaborated in the transaction. For this I use data-mining methods.

For example, because anagram #4 above stated that a peon sold his services to Prince Charles to crash wife’s car, I felt inclined to research the name of the driver of the car— Henri Paul. It appears that what is written in the name Henri Paul, is Henri’s testimony about his role in Princess Diana’s death, and his testimony confronting Prince Charles

⁴ <https://www.dailymail.co.uk/news/article-503489/My-husband-planning-accident-car-Dianas-sensational-letter-revealed-full.html>

planning and hiring him to be a suicide driver. Henri also testifies that something dangerous was put in the fuel in the car.

Here is the testimony that my God allowed me to see in the name of Henri Paul – the man driving Princess Diana’s car when it crashed.

Based on the statements in Henri Paul’s name, those in the name of Prince Charles, and other corroborating evidence, not presented here —as this is only a demonstration, we conclude that Princess Diana’s crash was NOT accidental, it was an intentional murder for hire—a hit was placed on Diana and executed by Henri Paul. Henri Paul was paid to be a suicide driver. Also, there was a woman involved with Prince Charles and Henri Paul in the planning of Princess Diana’s murder —, we know from an investigation of her name, that the woman was Camilla Parker-Bowles, currently known as Camilla, Duchess of Cornwall.

Based on the name research, it seems that my God has written Prince Charles’ judgment in Henri Paul’s name. Interpretation of the data is that since Charles planned an heir, God is going to unseat Prince Charles’ heir.

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

Since heir is mentioned in the name of Henri Paul, the next logical step is to look into the name of Prince Charles' Heir: William Arthur Philip Louis Windsor a.k.a Prince William.

THE NAME "WILLIAM ARTHUR PHILIP LOUIS WINDSOR " DECODED	
Interpretation	Anagrams
God is going to uproot Prince William and punish everybody in Prince William's proximity.	I will uproot him. I will punish radars.

Once a name is decoded, we prepare a narrative from the code, if the narrative pertains to a past or present event, then we research the facts. If the narrative pertains to a future event, we record the prediction, cross-reference it to Scripture and wait to see what happens. We store all information in our research database and conduct statistical analysis on our research to draw conclusions about the hypothesis.

HOW TO DO THE MATH

Because decoding using Encrypted Word of God is like playing a game of Charades, it is necessary to validate ENCRYPTED WORD OF GOD™ interpretation.

Authorized users decode GOD's cryptograms using GOD's encryption protocol, which is tailored to each user's frame of reference: language, experience, knowledge, vernacular (e.g. medical, legal or slang), etc. However, because it is possible for a decoder to introduce frame of reference bias when decoding, we have developed several methods for validating and verifying decoded messages: *Dynamic Encryption Keys* are discussed later in this document, *Claim-Evidence-Reasoning(CER)*— is traditional detective work, and *Statistical Analysis Tools*—Null Hypothesis and Linear Regression. We also use a customized statistical analysis tool called *P(GOD)*. *P(GOD)* calculates the probability that the decoded data accurately reflects the WORD of GOD. The Formula is as follows:

There are many ways to validate the Encrypted Word of God. In this introductory paper, I shall discuss three: Traditional Investigation, and two types of Statistical Analyses: Null Hypothesis and Linear Regression.

Traditional Investigation

We can verify Encrypted Word of God™ is from God by validating whether what is says is true. For we know truth comes through Jesus Christ.

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

For the law was given through Moses; grace and truth came through Jesus Christ. (John 1:17 BSB)

Here Encrypted Word of God™ gives us the truth, and if it is indeed truth, by using the scientific method to investigate, science will back it up.

Traditional Investigation is exactly as the name implies— the good old fashioned method of investigating facts should always be applied to validating the encrypted word of God to the extent possible.

1. If Encrypted Word of God™ says Princess Diana was decapitated -> exhume her body and inspect her remains.
2. If Encrypted Word of God™ says the motive for Princess Diana's murder was fear that Thomas Henry Charles Parker Bowles would be exposed as Charles' son -> use a DNA test to confirm or refute paternity.
3. If Encrypted Word of God™ says John Ramsey hosted a child sex party for CIA and Military personnel starring his daughter JonBenet Ramsey during a CIA/U.S. Military Seminar - > verify whether a CIA/Military seminar was being held locally at the time of JonBenet's death.
4. If Encrypted Word of God™ says Gianna Bryant attacked the pilot and seized control of Kobe's helicopter and the pilot succumb to Angina -> check the pilot's medical records for Angina. See if an attack on the pilot was feasible —check the layout of the helicopter to see if passengers had access to the pilot. Also check the flight chart—Was there any change in the flying pattern consistent with a seizing?
5. If Encrypted Word of God™ indicates that passengers chatted with loved ones after it became known that the pilot was dead -> interview the loved ones and find out what they know.

Statistical Analysis

Statistical Analysis is another tool that can be used to validate Encrypted Word of God™.

In this section I demonstrate two types of statistical analyses: Null Hypothesis and Linear Regression.

Null Hypothesis

Below is an excerpt from a null-hypothesis test I conducted a few years back, which I entitled “Freewill vs. Predestination.” This is NOT the entire test, just enough to introduce you to the process at work.

Well established theories—decision theory, game theory, theory of mind (ToM)—operate on the assumption of free will. Thus, the null hypothesis for this test is $H_o = \text{mankind has free will}$. *Free will* within the scope of this paper means mankind can do whatever he wants and does not have to take God’s law into consideration. The null hypothesis is generally assumed to be true until evidence indicates otherwise.⁶

The Bible states, “*Whatever has happened was foreordained, and what happens to a person was also foreknown. It is useless for him to argue with God about his fate because God is more powerful than he is. – Ecclesiastes 6:10 (NET Bible)*”

For purposes of this paper, Ecclesiastes 6:10 is the alternate hypothesis. The implication of the alternate hypothesis is mankind does NOT have free will, mankind’s choices are limited to those which follow the will of God, $H_a = \text{mankind is predestined}$.

“Rejecting or disproving the null hypothesis—and thus concluding that there are grounds for believing that there is a relationship between two phenomena [*God’s will and man’s*”

⁶ https://en.wikipedia.org/wiki/Null_hypothesis

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

destiny—is a central task in the modern practice of science; the field of statistics gives precise criteria for rejecting a null hypothesis.”⁷

In this paper, I shall use the significance testing approach of Ronald Fisher to disprove the null hypothesis and thus conclude that there are grounds for believing that God’s will controls men’s destiny. “Sir Ronald Aylmer Fisher FRS (17 February 1890 – 29 July 1962), who published as R. A. Fisher, was a British statistician and geneticist. For his work in statistics, he has been described as ‘a genius who almost single-handedly created the foundations for modern statistical science’ and ‘the single most important figure in 20th century statistics’. In genetics, his work used mathematics to combine Mendelian genetics and natural selection; this contributed to the revival of Darwinism in the early 20th century revision of the theory of evolution known as the modern synthesis.”⁸

“In the significance testing approach of Ronald Fisher, a null hypothesis is rejected if the observed data are significantly unlikely to have occurred if the null hypothesis were true. In this case the null hypothesis is rejected, and an alternative hypothesis is accepted in its place. If the data are consistent with the null hypothesis, then the null hypothesis is not rejected. In neither case is the null hypothesis or its alternative proven; the null hypothesis is tested with data and a decision is made based on how likely or unlikely the data are. This is analogous to the legal principle of presumption of innocence, in which a suspect or defendant is assumed to be innocent

⁷ https://en.wikipedia.org/wiki/Null_hypothesis

⁸ https://en.wikipedia.org/wiki/Ronald_Fisher

(null is not rejected) until proven guilty (null is rejected) beyond a reasonable doubt (to a statistically significant degree).”⁹

The implications of disproving the null hypothesis are numerous, in this paper, I delineate a few: 1) If man is predestined, then he does not exert his own will, he exerts the will of the one who predestined him. 2) If man’s will be controlled by predestination, then logic dictates the existence of a controller. 3) If mankind has a controller, then mankind is not superior in the universe. 4) If mankind is not superior in the universe, then there exists another life form(s) more superior than man. For argument sake, I call this superior life form God because the law of predestination states that the entity responsible for foreordaining events and destiny of individuals and groups of people is God.

Methodology to Test Null Hypothesis

Formulate null and alternate hypotheses.

Step one was to formulate the null and alternate hypotheses. This is accomplished by the following statements. H_o = mankind has free will. H_a = mankind is predestined.

Identify test statistic

Step two is to identify the test statistic that can be used to assess the truth of the null hypothesis.

I have selected the *name* of nouns (i.e. people, places and things) as the test statistic. The reason *name* has been chosen as the test statistic to assess the null hypothesis—*free will*—is because according to the law of predestination, our destiny is written in our name and in prior research

⁹ https://en.wikipedia.org/wiki/Null_hypothesis

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

(Rose 2017), I was able to observe the law of predestination by deciphering hidden codes in the names of people, places and things.

Assigning a value to p-value

Step three is to compute the p-value of the test statistic, *name*. If a name is arbitrary, we can expect no correlation between the name of a thing and its purpose on earth. For example, if a person's name has been arbitrarily selected by their parents and given to them at birth, then I expect to find no correlation between the person's name and their destiny, for a parent has no way of knowing, beforehand, the destiny of their child. Therefore p-value is computed to be zero or $p = 0$. In other words, I expect to find no correlation between a person's name and their ultimate lot in life. The same expectation is true for places and things.

For example, if I am arbitrarily selected to name a street, and I arbitrarily select the name, "*Murder Miss Smith Street*," there is no expectation that a woman named Miss Smith is going to be murdered on that street. However, if a year from now a woman named *Miss Smith is* murdered on the street I named *Murder Miss Smith Street*, the probability of me knowing, beforehand, that a murder would take place on *Murder Miss Smith Street* and the victim's name would be *Miss Smith is* near zero. Therefore, I am justified in assigning to the null hypothesis a p-value of *near zero*. Therefore, for the names of people, places and things; $p=0.001$.

Assigning a value to alpha

In Step 4, I establish an acceptable significance value, called the alpha value. I shall compare the alpha value to the p-value. If $p \leq \alpha$, then the observed effect is statistically significant, the null hypothesis is ruled out, and the alternate hypothesis is valid. The alpha value is determined

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

as follows: $\text{Alpha} = \text{p}(\text{name}) + \text{p}(\text{cluster}) + \text{p}(\text{pattern}) / \text{total \# names in cluster}$, where: $\text{p}(\text{name})$ represents probability of a name containing a person's destiny, $\text{p}(\text{cluster})$ represent probability that the name contains the person's destiny, when the person interacts with other predestined individuals in a predestination cluster; and $\text{p}(\text{pattern})$ represents the probability that individuals interacting in clusters are performing activities which constitute narratives that align to patterns of activities or narratives stated in biblical prophecy or the Qur'an.

Basis and Methodology for Establishing Alpha Value

So how did I come up with the alpha value? In this section I discuss the basis and method I used for establishing the alpha value.

The alpha value is expressed in one of two states only: true or false. Any non-zero value evaluates true and means the phenomenon being tested *is* observable, a zero value evaluates false, and means the phenomenon being tested *is not* observable. Evaluating the alpha value in terms of truth is appropriate because the Bible says, "*The sum of your [God's] word is truth ...*"¹⁰ and "*every word of God proves true.*"¹¹ This means that we can test words and if the words are God's they will evaluate to true. Therefore, *name*, *cluster* and *pattern*, are evaluated within the framework of the Boolean system of logic.

¹⁰ The sum of your word is truth, and every one of your righteous rules endures forever." - Psalm 119:160, English Standard Version (ESV)

¹¹ "Every word of God proves true. He defends all who come to him for protection." - Proverbs 30:5, The Living Bible (TLB)

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

In the Boolean system of logic, the Boolean datatype “is a data type, having two values (usually denoted true and false [*or 1 and 0*]), intended to represent the truth values of logic and Boolean algebra. It is named after George Boole, who first defined an algebraic system of logic in the mid 19th century. The Boolean data type is primarily associated with conditional statements.”¹² Thus since there are only two possible values for the Boolean datatype, any value that does NOT equal Zero (0), equals One (1), in other words, any value that is not false is true. So, no matter what non-zero value you ascribe to p(name), p(cluster), or p(pattern), if the value is not zero, then the value is one.

Every person in a cluster undergoes a character analysis. The methodology that I use for this character analysis is to look for anagrams and cryptograms in subjects’ names. “An anagram is a word or phrase formed by rearranging the letters of a different word or phrase, typically using all the original letters exactly once”¹³ A perfect anagram will use all the letters in the name only once. Partial anagrams—less than all letters—provide insight into the person, but their indicators are not as strong as a perfect anagram. Perfect anagrams give us the person’s destiny; they tell us that person’s purpose in life; their reason for being created. Partial anagrams give us insight into the nature of a person. Partial anagrams provide information about the role a person may play in a given context or situation. The anagram of a person can be as long as the human genome. For it is the DNA sequence that tells the story of our life, before and after.

¹² https://en.wikipedia.org/wiki/Boolean_data_type

¹³ <https://en.wikipedia.org/wiki/Anagram>

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

The first step in analyzing subjects' names is to run variations of their names through automated anagram finders. Automated anagram finders provide thousands of anagrams for a name in seconds. Based on the volume of anagrams provided, I can quickly observe the sentiment of a name.

“The disadvantage of automated anagram finders, especially when applied to multi-word anagrams, is their poor understanding of the meaning of the words they are manipulating. They usually cannot filter out meaningful or appropriate anagrams from large numbers of nonsensical word combinations”¹⁴

Thus, depending on what I'm looking for, I will follow the sentiment of the name based on the words provided by the anagram finder or I will focus on words that are consistent with the subject or context of the situation that I am investigating. For example if I'm trying to find out who the head of God's household is, I look for words relating to being in charge or not being in charge (e.g. anointed, head boss, fired, resigned), upon which I can begin to ascertain a strong relevant perfect anagram. Either way I develop a short list of words from the thousands and begin a permutation analysis as I wait to see what the LORD reveals. Sometimes what the LORD reveals is not on my shortlist, in which case I redirect my search based on what the LORD reveals. I then confirm the findings by looking at the person's life work. What is typically revealed is either an indication of the person's destiny or their judgment, sometimes however its neither, and the LORD is just discussing them.

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

Assigning a value to p(name)

If after analysis, p(name) yields a message consistent with the person's function or lot in life, then p(name) must be assigned any number greater than *near zero*; $p(\text{name}) > 0.001$.

If p(name) does not yield a message consistent with the person's function or lot in life, then $p(\text{name}) = 0$.

Assigning a value to p(cluster)

If after analysis, it can be established that all names in cluster contribute to a cluster narrative, then p(cluster) must be assigned any number greater than *near zero*;

$p(\text{cluster}) > 0.001$.

If all names assigned to cluster do not contribute to the cluster narrative, then remove the name from the cluster and redo the analysis. A cluster must contain at least one name.

If no cluster narrative is established from names assigned to cluster, then $p(\text{cluster}) = 0$.

Assigning a value to p(pattern)

If any part of the cluster narrative conforms to the pattern of a biblical prophecy, then p(pattern) must be assigned any number greater than *near zero*; $p(\text{pattern}) > 0.001$.

If no part of the cluster narrative conforms to the pattern of a biblical prophecy, then check the Qur'an to see if the cluster narrative conforms to a pattern in the Qur'an.

If the cluster narrative conforms to a pattern in the Qur'an, then p(pattern) must be assigned any number greater than *near zero*; $p(\text{pattern}) > 0.001$.

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

If no part of the cluster narrative conforms to the pattern of biblical prophecy and fails to conform to any pattern in the Qur'an, then $p(\text{pattern}) = 0$.

The reason name of nouns was selected as the test statistic to assess the truth of the null hypothesis—*mankind has free will*—is because the Bible says our destiny is written in our name.

Data

The data used for this null hypothesis test are names of people, places and things I have encountered on my journey with God. The data used for each name is NOT exhaustive, but exemplary. The names have been organized into two clusters: a biblical example and a modern-day example.

Cluster One: A Biblical Example of God's Judgment

Cluster one narrative.

“Now Pashhur the son of Immer, the priest who was also chief governor in the house of the LORD, heard that Jeremiah prophesied these things. Then Pashhur struck Jeremiah the prophet, and put him in the stocks that were in the high gate of Benjamin, which was by the house of the LORD. And it happened on the next day that Pashhur brought Jeremiah out of the stocks. Then Jeremiah said to him, “The LORD has not called your name Pashhur, but Magor-Missabib.^[a] For thus says the LORD: ‘Behold, I will make you a terror to yourself and to all your friends; and they shall fall by the sword of their enemies, and your eyes shall see it. I will give all Judah into the hand of the king of Babylon, and he shall carry them captive to Babylon and slay them with the sword. Moreover I will deliver all the wealth of this city, all its produce, and all its precious things; all the treasures of the kings of Judah I will give into the hand of their enemies, who will plunder them, seize them, and carry them to Babylon. And you, Pashhur, and all who

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

dwell in your house, shall go into captivity. You shall go to Babylon, and there you shall die, and be buried there, you and all your friends, to whom you have prophesied lies.’” – Jeremiah 20:1-6 (NKJV) (Footnote [a]: [Jeremiah 20:3](#) Literally Fear on Every Side (NKJV))

Cluster one names.

The names in this cluster are Jeremiah, Pashhur, and Magor-Missabib.

Jeremiah is an anagram for “*me hejira.*” Hejira is a variant spelling of ‘*hegira*’ which means “*an exodus or migration.*”

Jeremiah is also an anagram for “*Him a Jeer.*” **Jeer** “is a rude or mocking remark; taunt, insult, abuse, sneer, ridicule, deride, boo, heckle.¹⁵”

Pashhur was a priest and chief governor in the house of the LORD. A decipher of his name indicates that he was predestined to fulfill the job of a priest. **Pashhur is an anagram for the following:**

“**Pauhs hr**” translated “Pause Hour,” identifies Pashhur, the priest, as responsible for making sure everyone stops what they are doing and pause for an hour.

“**Hush pra**” translated “Hush pray,” which means Pashhur was responsible for bringing about silence and prayer in the house of the LORD.

“**Prh haus**” a soundex for “Prayer House,” identifies Pashhur as the prayer house. ‘Prh haus’ identifies Pashhur as a *living* temple of God. This meaning is consistent with Exodus 20:24,

¹⁵ Google Dictionary.

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

discussed earlier. Pashhur's name identifies Pashhur as a location where God's people are authorized to go and pray.

Now as we see from Scripture, God changed Pashhur's name to Magor-Missabib.

Magor-Missabib

Magor-Missabib is a name denoting Pashhur's judgment for his treatment towards God's prophet Jeremiah. Upon examination of his new name, Magor-Missabib, it becomes clear why Pashhur would become a terror to all his friends. **Magor-Missabib** is an anagram for "*Is Grim as a Bomb*"

Grim is something so unpleasant that you don't want to be around it.

Bomb is a device that wreaks havoc and destruction on those who encounter it. Any bomb will literally cause fear on every side.

It should be noted, that the use of bombs did not begin until the 11th century in Song Dynasty China,¹⁶ which means that when God renamed Pashhur "*Is Grim as a Bomb*," nobody but God, knew what a bomb was, for bombs were not yet discovered in Pashhur's time.

¹⁶ <https://en.wikipedia.org/wiki/Bomb>

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

Cluster one pattern.

The meaning of Jeremiah's name was consistent with his calling—delivering a message of exodus to the people of Judah. Jeremiah *was* jeered and abused for telling the King of Judah that they were going to be exiled to Babylon (Jeremiah 20:6).

“O Lord, You induced me, and I was persuaded; You are stronger than I, and have prevailed. I am in derision daily; Everyone mocks me. For when I spoke, I cried out; I shouted, ‘Violence and plunder!’ Because the word of the Lord was made to me A reproach and a derision daily.

“Then I said, ‘I will not make mention of Him, Nor speak anymore in His name.’ But His word was in my heart like a burning fire Shut up in my bones; I was weary of holding it back, And I could not. For I heard many mocking: ‘Fear on every side!’ ‘Report,’ they say, ‘and we will report it!’ All my acquaintances watched for my stumbling, saying, ‘Perhaps he can be induced;

“Then we will prevail against him, And we will take our revenge on him,” (Jeremiah 20:7-10 NKJV).

As to Pashhur, before judgment, God designated Pashhur as the house of prayer, as specified by Exodus 20:24. *“An altar of earth you shall make for me and sacrifice on it your burnt offerings and your peace offerings, your sheep and your oxen. In every place where I cause my name to be remembered I will come to you and bless you,” (Exodus 20:24 ESV).*

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

The meanings in Pashhur's name are consistent with what is required of priests –
command silence and lead people in prayer in the House of the Lord.

"Be silent in the presence of the Lord God; For the day of the Lord is at hand, For the Lord has prepared a sacrifice; He has invited His guests," (Zephaniah 1:7 MKJV)

"Be silent, all flesh, before the Lord, for He is aroused from His holy habitation!" (Zechariah 2:13 MKJV)

Cluster one formula.

$\alpha = (p(\text{name}) + p(\text{cluster}) + p(\text{pattern})) / \text{total \# names in cluster.}$

$\alpha = 3 + 1 + 1 / 3 = 5/3 = 1.67$

$p = 0.001, \alpha = 1.67$

If $p < \alpha$ is true, then cluster is statistically significant.

Cluster one conclusion.

Cluster one is statistically significant. The alternate hypothesis replaces the null.

Cluster one demonstrates that names are dynamic. A change of name means a change in purpose, not only for the person whose name changes, but also for all the people in that person's cluster.

For example, when God changes Pashhur's name to Magor-Missabib, not only does God change the fate of Pashhur, but God also changes the fate of all Pashhur's friends, and anyone remotely connected to Pashhur. So, to enter judgment against a person, all God does is change their name, as He did with Pashhur.

Cluster Two: 55 Mathematicians Give Bad Advice

Cluster two narrative.

In the late 20th century phenomena were observed in the Noble Qur'an and in the Holy Bible—*patterns and codes*. In 1981 Rashad Khalifa, an Egyptian-American biochemist (deceased), discovered a mathematical structure, based on the number 19, hidden in the Qur'an.¹⁷ In 1994, three Israelis found codes hidden in the Book of Genesis and demonstrated that the codes referenced modern-day individuals. Their findings were published in *Statistical Science*, Vol. 9 (1994) 429-438, as a puzzle—*Equidistant Letter Sequences in the Book of Genesis*, by Doron Witztum, Eliyahu Rips and Yoav Rosenberg.

In 1997, an American journalist named Michael Drosnin, expanding upon the theory of *Equidistant Letter Sequences* with his own research, published separately, a book entitled *Bible Code* wherein Drosnin asserted that there are codes hidden in the Bible which can be interpreted with the help of a computer program. According to Drosnin, the “Bible Code” predicts the future.¹⁸

The implication of hidden code existing in the Bible, capable of predicting the future of modern day individuals, if proven true, is proof of God's existence. For the Bible tells us that God alone, has knowledge of the future.

“Remember the things I have done in the past. For I alone am God! I am God, and there is none like me. Only I can tell you the future before it even happens. Everything I plan will come to pass, for I do whatever I wish.” (Isaiah 46:9-10 NLT)

By 2007, Drosnin had written a 3-book series. “The series included *The Bible Code, and Bible Code II: The Countdown*, and the last in the series, *Bible Code III: Saving the World*, which warned of the real Armageddon, and how to prevent it.¹⁹ According to the marketing text for Drosnin’s books, Drosnin said “We might face the real Armageddon, nuclear terror ... The Apocalypse. Armageddon. I could hardly believe it myself. I'm not religious. I don't believe in God. I'm a totally secular, skeptical investigative reporter,”²⁰ but there is a “danger that may wipe out New York and Washington.”²¹

Meanwhile, in response to *Equidistant Letter Sequences in the Book of Genesis*, by Doron Witztum, Eliyahu Rips and Yoav Rosenberg—Brendan McKay, Dror Bar-Natan, Maya Bar-Hillel, and Gil Kalai published a paper entitled *Solving the Bible Code Puzzle*, where they argued against the probability of codes being hidden in the Book of Genesis by demonstrating that hidden “codes” could be found in any text of substantial length. The question that Brendan McKay, et al, attempted to answer, was whether the Book of Genesis contained letter arrays that constitute thematically or contextually related words in compact formations more often than expected by chance.²² They concluded that what was observed by Doron Witztum et al., was a chance occurrence which, had no scientific merit.

Supporting McKay et al., Fifty-five (55) Mathematicians from prominent universities around the world signed a petition. The petition was entitled Mathematicians’ Statement on Bible Code:

“We are making this statement concerning what have been called ‘Bible codes’ or ‘Torah codes’. We recognize that many sincere people take this phenomenon seriously, which compels us to speak out on the basis of what our mathematical training tells us about the evidence claimed for this alleged phenomenon.

“There is a common belief in the general community to the effect that many mathematicians, statisticians, and other scientists consider the claims to be credible. This belief is incorrect. On the contrary, the almost unanimous opinion of those in the scientific world who have studied the question is that the theory is without foundation. The signatories to this letter have themselves examined the evidence and found it entirely unconvincing.

“We refer in particular to the paper Equidistant Letter Sequences in the Book of Genesis, published in Statistical Science in 1994. This experiment suffers from major problems concerning both its execution and the interpretation of its conclusions. Even without these concerns, we would not take such extraordinary claims seriously without a vastly more systematic and thorough investigation. No such investigation has been carried out, nor has the work so far established a prima facie case. In addition, word clusters such as mentioned in Witztum's and Drosnin's books and the so called messianic codes are an uncontrolled phenomenon and similar clusters will be found in any text of similar length. All claims of incredible probabilities for such clusters are bogus, since they are computed contrary to standard rules of probability and statistics.

Among the signatories below are some who believe that the Torah was divinely written.

We see no conflict between that belief and the opinion we have expressed above.²³”

When I saw the mathematicians’ petition, I immediately knew they were wrong, and I wrote a rebuttal.²⁴ However, at the time of writing the rebuttal, my focus was only on the scientists involved in the debate: Doron Witztum, Brendan McKay, Maya Bar Hillel, Dror Bar-Natan and Gil Kalai. Since that time however, the LORD has revealed information about the journalist —Michael Alan Drosnin—which is both key to the debate, and relevant to the deaths of Princess Diana, JonBenét Ramsey and Kobe Bryant’s Helicopter Crash.

Cluster two names.

Here is a recap of what I saw in the names of the mathematicians and scientists that participated in the Bible Code debate using Encrypted Word of God™:

to be encoded to the same representation so that they can be matched despite minor differences in spelling.²⁵ Doron Witztum is the mathematician who first introduced us to ‘*Bible Code*’²⁶.

“*Brendan McKay*” is an anagram for “**Many Back Nerd.**” Brendan McKay was the person responsible for stifling Witztum’s line of scientific inquiry. McKay could be seen taking a victory lap around the internet. While McKay’s initial rebuttal may have been professional, he engaged in several unprofessional and unnecessary personal attacks on Witztum. McKay’s findings were backed by the 55 mathematicians who signed Simon’s petition.

Fifty-five Mathematicians is anagram for “*A Fine Ivy Mathematics Tiff.*” This means each mathematician was predestined individually, and supernaturally directed as a group to engage in a fine ivy league mathematics tiff and fulfill the proclamation in McKay’s name—*Many Back Nerd* and thus demonstrate the strength of God’s encryption.

Maya Bar Hillel is an anagram for the phrase “**May Hell Bar Ali.**” **Bar** means to obstruct. “**Ali** (Arabic: علي, ‘Alī) is a male Arabic name derived from the Arabic root ʕ-l-w, which literally means "high" or "elevated" the name is identical in form and meaning to the Hebrew: אֵלִי, Eli, which goes back to the High Priest Eli in the biblical Books of Samuel. “**Eli** (/ˈiːlaɪ/) is a masculine given name of Hebrew origin, from Biblical אֵלִי "ascent", the name of Eli, the high priest in the Books of Samuel. ²⁵ <https://en.wikipedia.org/wiki/Soundex>

²⁶ I am adopting this phrase from the title of Michael Drosnin’s Book, because given my deeper understanding that I shall be attaching to this phenomenon, I think use of the term ‘Bible Code’ to refer to Witztum’s ELS’ is more appropriate.

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

the 17th century and was by them taken to the American colonies. “Alternately, **Eli** may be an unrelated abbreviation of Hebrew names such as Elijah, Elisha, Eliezer, Elimelech, etc., all containing the element אלי, meaning “my God”.²⁷ So **Maya Bar Hillel** deciphered means “**May hell bar my God.**”

Dror Bar-Natan is an anagram for the phrase “**Dor Bar Rat-Ann.**” This anagram is pronounced “Door Bar Rotten.”

From this observation, it can be inferred that Witztum and McKay were predestined to become involved in a scientific squabble, and many people were predestined to back McKay.

Further— the two bars—**Maya Bar Hillel** and **Dror Bar-Natan** were predestined to obstruct Doron Witztum (*Door on Wisdom*), meaning the bars were keeping the door shut so that the world would not have access to the wisdom behind the door. However, the anagram of **Dror Bar-Natan—Dor Bar Rat-Ann** is pronounced “*Door Bar Rotten,*” a spiritual indication that the time is ripe to open the door; all that is required is a key. Jesus told me that He placed the key around my neck. Deirdre Rose is the private key in a public-private key pair; Jesus Rose is the public key. Deirdre Rose decomposes into 7 names which correspond to the 7 names of Jesus Christ in the first three chapters of the Book of Revelation.²⁸

Gil Kalai is the fourth author on McKay’s *Solving the Bible Code Puzzle*. “**Gil Kalai**” is an anagram for the phrase “**I Kill Aga**” **Aga** has a historical meaning “(in Muslim countries, especially under the Ottoman Empire), [Aga] is a military commander or official.”²⁹ According to this source, **Aga** originates from a Turkish word that means Master or Lord. So “**Gil Kalai**” means “**I Kill Master or Lord.**”

The decipher of Gil Kalai implies the reincarnation of someone responsible for killing Jesus Christ, for the purpose of fulfilling prophecy. “*Behold, He is coming with clouds, and every eye will see Him, even they who pierced Him. And all the tribes of the earth will mourn because of Him. Even so, Amen*” – Revelation 1:7

If $p < \alpha$ is true, then cluster is statistically significant.

Cluster two conclusion.

Cluster two is statistically significant. The alternate hypothesis replaces the null.

Ecclesiastes 6:10 was proven true by deciphering the names Doron Witztum, Brendan McKay, Fifty-Five Mathematicians, Dror Bar-Natan, Maya Bar-Hillel, and Gil Kalai. For not only did the names of the debate participants clearly define their role in the debate, but collectively their names describe the interaction that transpired amongst them. The actors' names and activities are consistent with the Law of Predestination, no evidence to uphold the notion of free will.

Calculating the Probability of God Using An Integrated Messaging Example

Cluster Two offers a unique opportunity to demonstrate how to complete God's Mathematical Formula. God says, "*I expose the false prophets as liars and make fools of fortune-tellers. I cause the wise to give bad advice, thus proving them to be fools. (Isaiah 44:25 NIV).*"

$$p(\text{God}) = \frac{p(\text{Secrets}) + p(\text{Signs}) + p(\text{Prophecies Fulfilled}) + p(\text{New Wisdom})}{\text{Total Number of Zero Probability Events}}$$

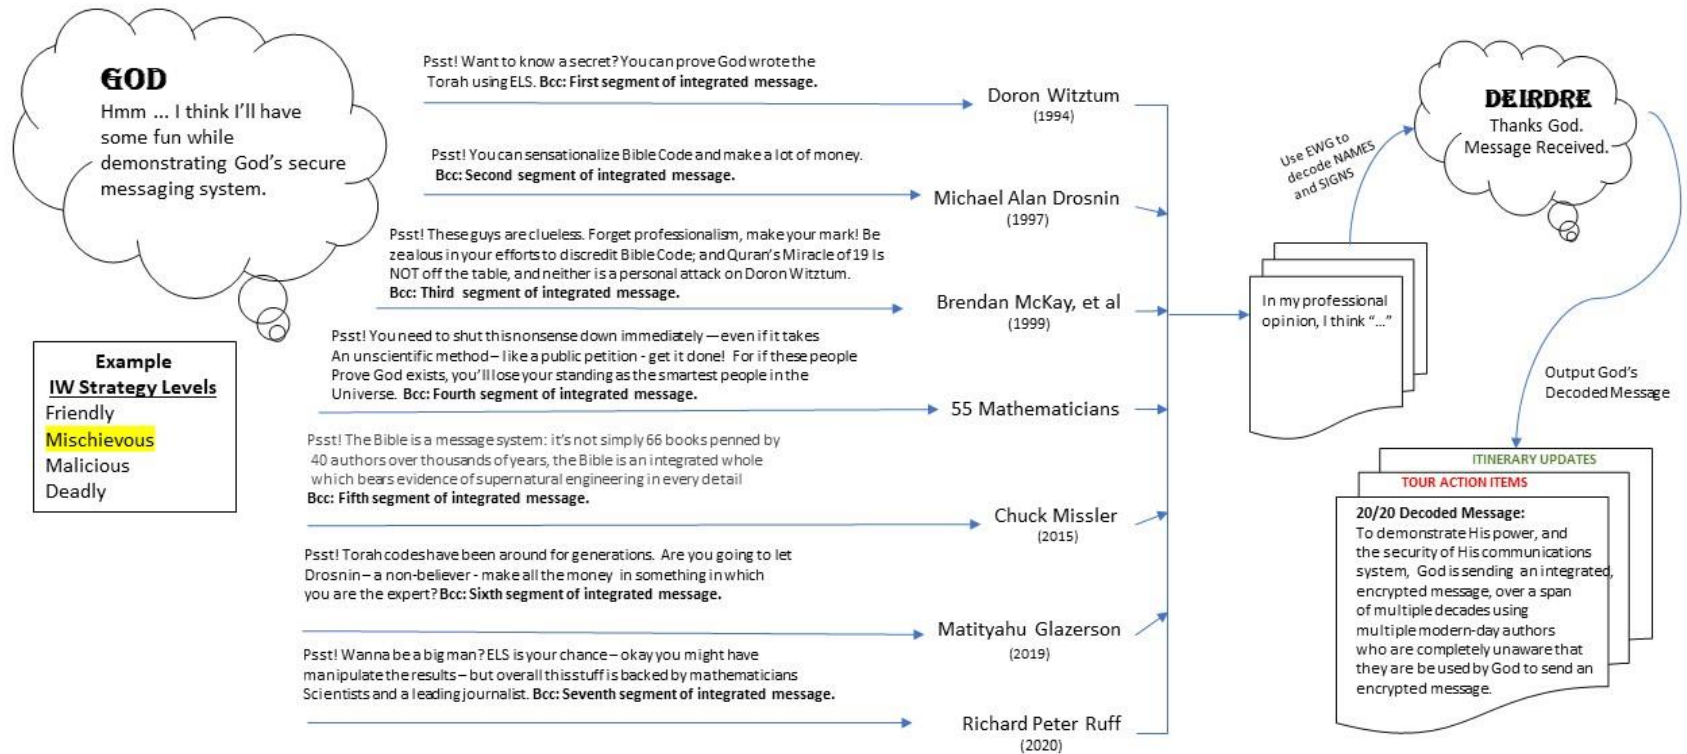

If I prove that God fulfilled Isaiah 44:25, with cluster two then $p(\text{God})$ equals 1; denoted below.

$$p(\text{God}) = \frac{0 + 0 + 1 + 0}{1} = 1$$

Though **Michael Alan Drosnin's** Bible Code series met with criticism from both scientific³⁰ and purportedly Jewish communities,³¹ God revealed through His integrated message that Michael Alan Drosnin was an unwitting messenger of God. Michael Alan Drosnin is Noah, sent to herald.

Michael Alan Drosnin contains the following anagrams: ***Ironic, Allah Send Man.***

Among the things Michael Alan Drosnin heralded, is how Jesus is going to deal with criminals. The deaths of Princess Diana, JonBenet Ramsey, Kobe and Gianna Bryant, are orchestrated examples, with real consequences.

Michael Alan Drosnin is an anagram for ***Son Handle A Criminal.***

God says Michael Alan Drosnin is Noah for this generation and the only one engaged in the Bible Code debate who actually discerned God's message.

Michael Alan Drosnin is anagram for ***Noah Discern L Manila***, soundex ***Noah Discern EL Manila***, translated Noah Discerned God's Encrypted Mail (Manilla Envelope).

“Just as it was in the days of Noah, so also will it be in the days of the Son of Man: People were eating and drinking, marrying and being given in marriage, up to the day Noah entered the ark. Then the flood came and destroyed them all.

“It was the same in the days of Lot: People were eating and drinking, buying and selling, planting and building. But on the day Lot left Sodom, fire and sulfur rained down from heaven and destroyed them all.

“It will be just like that on the day the Son of Man is revealed. On that day, let no one on the housetop come down to retrieve his possessions. Likewise, let no one in the field return for anything he has left behind. Remember Lot’s wife! Whoever tries to save his life will lose it, but whoever loses his life will preserve it. I tell you, on that night two people will be in one bed: One will be taken and the other left. Two women will be grinding grain together: One will be taken and the other left.” (Luke 17:26-35 BSB)

In the tables below, we demonstrate. Encoded in the name, **Michael Alan Drosnin** are facts pertaining to how and why Kobe Bryant’s daughter killed Ara, the pilot of the helicopter, thus causing the helicopter crash of January 26, 2020 in Calabasas, Ca.

It’s easy to see how Drosnin erred, perceiving Bible code *predicting* the future. The nuance is in understanding that Bible Code is NOT a 3000 year old code, Bible Code is NOT static, Bible Code Is Living, It is the Encrypted Word of God™. As demonstrated in the figure above, Bible Code is real-time and contemporaneous responses from God. Bible code does NOT *predict* the future, God *declares* the future, and reveals that future to whomsoever He wills.

Segment Three

In segment three God informed me that the time was ripe to open the door on wisdom.

Brendan Mckay	Segment Three Message
Many Back Nerd	Though there were two bars helping Brendan Mckay obstruct Doron Witztum (Door on Wisdom)— Maya Bar Hillel and Dror Bar-Natan , working to keep the door shut so that the world would not have access to the wisdom behind the door. The LORD informed me, through anagram of Dror Bar-Natan which is Dor Bar Rat-Ann is pronounced " <i>Door Bar Rotten</i> ," that the time is ripe to open the door; all that is required is a key. Jesus told me that He placed the key around my neck. Deirdre Rose is the private key in a public-private key pair; Jesus Rose is the public key. Deirdre Rose decomposes into 7 names which correspond to the 7 names of Jesus Christ in the first three chapters of the Book of Revelation. ³²

Segment Four

Segment four informed me that God cursed the mathematicians and caused them to give bad advice.

³² Proof of God Using the Scientific Method, (Rose 2017).

<p>Anagram: Am Sit Machinate Anagram: Mi Anathema Tics Soundex: Me Anathema Tics</p>	<p>Machinate means the LORD sat and plotted against the mathematicians. Anathema is a strong curse; a formal curse by a pope or a council of the Church, excommunicating a person or denouncing a doctrine. Tic is an abnormality. The LORD cursed the mathematicians so that their math would be abnormal.</p>

I think it was a fine Ivy Mathematics Tiff.</p>

Segment Five

Segment Five was a literal message confirming that the Holy Bible is a secure real-time messaging system. In segment 5 the LORD demonstrates real-time messaging.

<p>Anagram: Will Research Mss Translate: Will Research Manuscripts.</p>	<p>Segment five informs that by researching Missler's Manuscripts, I would learn that "The Bible is a message system: it's not simply 66 books penned by 40 authors over thousands of years, the Bible is an integrated whole which bears evidence of supernatural engineering in every detail."</p>

Real-Time Messaging.

I was in the midst of writing this paper, working on Missler’s name, when the LORD said **“Prince William’s error is he think he’s chief. Archie is Prince William’s mess.”**

I said, “What?”

Then I went to double check, Figure 5 Confirms that Archie is Prince William’s Mess. The table confirms I received the information about Archie real-time while working on something else – Charles W. Missler.

Segment Six

In Segment Six God informed me that He looked at Richard Ruff’s charter, and though Ruff was proud of his charter, Ruff was drifting and preaching dirt. The Lord instructed me to redraft the Torah Code. God also updated the status of calendar and added additional items to our itinerary.

THE MINISTRY OF SECOND TIMOTHY, INC. WWW.THEMINISTRYOF2TIMOTHY.ORG WWW.COURTOFGOD.ORG

The manner in which I obtained God’s message pertaining to Richard Ruff started with an inspiration, which I recognized as a clue, which turned into a treasure hunt. Here is what happened:

God inspired me to join a Facebook group that discussed Bible Code, for the purpose of sharing what I discovered in the names of Doron Witztum and the other debate participants. When I say *‘inspired’* I mean I got a *‘feeling’* that locating a Bible Code Facebook group and sharing information about what I found on Doron Witztum and the others is what I was supposed to do. I only know the feeling was inspired by God because of the outcome, as I shall demonstrate below:

I searched and found such a group called Torah/Bible Code. The group administrator was Richard Peter Ruff. I sent a request to join the group and my request to join was accepted on August 27, 2019 — screenshot below. My first post was the information that I learned about Doron Witztum and the original debate participants.

In response to my first post, Richard Ruff asked if I could look at the name of Glazerson, because he had found a relationship between Caiaphas and Glazerson in the Torah Code.

Figure 1: Richard Ruff's Request To Look at Name of Glazerson

I had never heard of Glazerson, and didn't even know if the LORD wanted me spending my resources looking Glazerson up, so I asked the LORD if He wanted me to research Glazerson, then I began to research. I reasoned that if the LORD didn't want me looking Glazerson up, I would immediately find nothing, but if God wanted me to reason Glazerson, I would find something that indicated, I should continue researching.

I found something — Rabbi Matityahu Glazerson is the Church in Thyatira (See Segment Seven). I then turned my attention to researching any relationship between High Priest Caiaphas and Glazerson, based on Richard' Ruff's Torah Code Reference.

Decoding Caiaphas Glazerson

Jesus informed me that I could do a Boolean Search on Caiaphas AND Glazerson to get information about the relationship between the High Priest Caiaphas and M. Glazerson.

I Decoded Caiaphas Glazerson and found a lot of information – much outside of the scope of this paper. Here is an excerpt of what I found:

Segment Seven

In segment seven God instructed me to send a letter to Church in Thyatira.

RABBI MATITYAHU GLAZERSON	SEGMENT SEVEN MESSAGE
<p>Anagram: Thyatira Zeal Am Robbing Us Anagram: Thyatira Bize Grab Man Soul Soundex: Thyatira Busy Grab Man Soul Anagram: Thy Rose Built A Anagram Biz Translate: Thy Lord Built An Anagram Business. The LORD also instructed me to deliver this personal message to Matityahu Glazerson:</p> <p>“Thy LORD built an anagram business. Lo, My business run and set sheep aright.”</p>
<p>GOD’S CUSTOMIZED THYATIRA LETTER TO MATITYAHU GLAZERSON.</p> <p>“I listened and heard, But they do not speak aright. No man repented of his wickedness, Saying, ‘What have I done?’ Everyone turned to his own course, As the horse rushes into the battle. Even the stork in the heavens Knows her appointed times And the turtledove, the swift, and the swallow Observe the time of their coming. But My people do not know the judgment of the Lord. How can you say, ‘We are wise, And the law of the Lord is with us’? Look, the false pen of the scribe certainly works falsehood. The wise men are ashamed, They are dismayed and taken. Behold, they have rejected the word of the Lord; So what wisdom do they have? (Jeremiah 8:6-9 NKJV)</p> <p>“But if they had stood in my council, they would have proclaimed my words to my people and would have turned them from their evil ways and from their evil deeds.” (Jeremiah 23:22 NIV)</p> <p>“Should people cheat God? Yet you have cheated me!</p> <p>“But you ask, ‘What do you mean? When did we ever cheat you?’</p> <p>“You have cheated me of the tithes and offerings due to me. You are under a curse, for your whole nation has been cheating me. Bring all the tithes into the storehouse so there will be enough food in my Temple. If you do,” says the LORD of Heaven’s Armies, “I will open the windows of heaven for you. I will pour out a blessing so great you won’t have enough room to take it in! Try it! Put me to the test! Your crops will be abundant, for I will guard them from insects and disease. Your grapes will not fall from the vine before they are ripe,” says the LORD of Heaven’s Armies. “Then all nations will call you blessed, for your land will be such a delight,” says the LORD of Heaven’s Armies.</p> <p>“You have said terrible things about me,” says the LORD.</p>	

“But you say, ‘What do you mean? What have we said against you?’

“You have said, ‘What’s the use of serving God? What have we gained by obeying his commands or by trying to show the LORD of Heaven’s Armies that we are sorry for our sins? From now on we will call the arrogant blessed. For those who do evil get rich, and those who dare God to punish them suffer no harm.’” (Malachi 3:8-15 NLT)

¹⁸ “And to the angel of the church in Thyatira write:

The Son of God, who has eyes like a flame of fire, and His feet are like burnished bronze, says this:

¹⁹ ‘I know your deeds, and your love and faith and service and perseverance, and that your deeds of late are greater than at first. ²⁰ But I have *this* against you, that you tolerate the woman Jezebel, who calls herself a prophetess, and she teaches and leads My bond-servants astray so that they commit *acts of immorality* and eat things sacrificed to idols. ²¹ I gave her time to repent, and she does not want to repent of her immorality. ²² Behold, I will throw her on a bed *of sickness*, and those who commit adultery with her into great tribulation, unless they repent of her deeds. ²³ And I will kill her children with pestilence, and all the churches will know that I am He who searches the minds and hearts; and I will give to each one of you according to your deeds. ²⁴ But I say to you, the rest who are in Thyatira, who do not hold this teaching, who have not known the deep things of Satan, as they call them—I place no other burden on you. ²⁵ Nevertheless what you have, hold fast until I come. ²⁶ He who overcomes, and he who keeps My deeds until the end, TO HIM I WILL GIVE AUTHORITY OVER THE NATIONS; ²⁷ AND HE SHALL RULE THEM WITH A ROD OF IRON, AS THE VESSELS OF THE POTTER ARE BROKEN TO PIECES, as I also have received *authority* from My Father; ²⁸ and I will give him the morning star. ²⁹ He who has an ear, let him hear what the Spirit says to the churches.’

(Revelation 2:18-29 NASB)

So, as I have demonstrated God proved that He caused 55 ivy league mathematicians to give bad advice, they claimed there was no code hidden in the Holy Bible, God has given me the authority to demonstrate that not only is there hidden code in the Bible, but that there is hidden code in

everything, and this was the message of Michael Alan Drosnin. Michael Alan Drosnin is the Noah of this generation, his core message is that God’s house is an Islamic house.

CRYPTOGRAMS IN MICHAEL ALAN DROSNIN	Translated
C Allah Rose Am In D Inn Son Hid r Alliance Man Herald I C Man Nail Son C Herald is Lion Manna Manna Clarion Shield Man nail Son, Son are Child In End I Allah am Scorn I Allah C Damn o Sinner Ironic Allah Send Man C Noa Herald Islam Inn	See Allah and Jesus Rose are in the House. Son Hid Our Alliance From Man (John 10:16) Allah sent Jesus to Herald and, “I see man nail Son.” See Jesus was Allah’s Bread from Heaven. Jesus was clear that He was sent for protection Yet man nailed Son, knowing Son is God’s child. In the End, Allah was scorned. I Allah See and Damn All Sinners. Ironic, Allah Send Man See Noah (Drosnin) announced an Islamic House.
He n Son Mail Cardinal C I am Hand Rein Son All	Allah and Son Mail Cardinal See Allah hand the reins to Jesus; Jesus will reign over all.
Ala Clean Inn D Si Horm Clean Mold Inn Sharia	But First, Allah is going to clean House, the sin harms. God shall clean and mold His House to comply with Sharia law.
Demolish A Carnal Inn A Halal Crimsoned Inn Am No Halal Cri Sinned	God is going to demolish a Carnal House. God has given permission for bloodshed in His house. God said He’s giving no permission to cry for those who sinned.

Thus, God has fulfilled prophecy — God says, “*I expose the false prophets as liars and make fools of fortune-tellers. I cause the wise to give bad advice, thus proving them to be fools. (Isaiah 44:25 NIV).*” Therefore, as it relates to Isaiah 44:25 I can increase the p(prophecies fulfilled variable by 1.

$$p(\text{God}) = \frac{p(\text{Secrets}) + p(\text{Signs}) + p(\text{Prophecies Fulfilled}) + p(\text{New Wisdom})}{\text{Total Number of Zero Probability Events}}$$

$$p(\text{God}) = \frac{0 + 0 + 1 + 0}{1} = 1$$

P(God) =1; The probability of God is certain!

Linear Regression

Another test that can be used with Encrypted Word of God is linear regression. Linear regression is a kind of statistical analysis that attempts to show a relationship between two variables. In this case we can show the relationship between the **name** of a person and the **events** that person experiences in their lifetime based on the number of permutations —perfect anagrams—found in their name, that describe confirmable events which have occurred or will occur at various points (ages) in the person’s life.

Consider the data set below:

Name	Event
Diana Frances Spencer	Paris France Scene NDA ³³
Christina Mauser	Me In A Crash Is Rut
Sarah Chester	Charter Ashes
Peter Paul Montgomery Buttigieg	Gay Pete Be Ruling Time Trump To Go
John Bennett Ramsey	Y John Rent Basement
Patricia Ann Ramsey	A Airman CIA Spy Rent

Over a period of time a statistical database can be developed, using a process like that shown in the figure below, from which we can extract a sizeable dataset and apply linear regression to obtain an equation that can be used to test the simulation hypothesis and predict how many people, places and things have been simulated (i.e. have had their lives scripted by God).

For example, the follow equation was generated from data collected for the X and Y variables.

$$\hat{y} = 4.82634X - 4.5676$$

³³ Paris France is the Scene of a Non-Disclosure Agreement (NDA) (i.e. a Murder-For-Hire Agreement)
