Sessions have been conducted via phone since COVID. Most of my current clients are located all over the US, therefore once the country open post pandemic, unless you are in NYC, our sessions will remain on Phone or FT...or Zoom.Those who are located in NYC are welcome to come to my office.

This is a **no judgement zone**, I am very passionate about people knowing that they are not judged. Trust me when I say that there is nothing I have not heard or seen. We are ALL flawed human being, living life the best we can. Those of us who get to the place where they realize they could use a little help seek out someone like myself, those are the smart ones. We all need help from time to time as we attend the "University of life on Earth"
