

## **FASTANELLI**

**Here at Fastanelli Recycling Project Management, we pride ourselves with providing Project Management Services for Manufacturing Projects and Construction Projects. We have access to a wide array of companies that we work with in order to provide you with the tools that you need to correctly manage your waste materials. We also have Project Managers with many years of experience who are looking forward to helping your Business to save money as well as become a respectable Green Business. Whether its a Manufacturing Project or a Construction Recycling Project, we look forward not only to leading your projects, but to bring you a peace a mind when it comes to operating within a very detailed manner. Not like our competition that just want to gain Contract money.**

**We are very passionate about what we do and we don't rest well without knowing that we have provided your Business with Top-Of-The-Line Service(s). That's why we only choose to Co-Partner with Companies that mirror our Principle's.**

### **(Plastic Recycling)**

**We offer two types of Plastic Recycling. Non-Contaminated Plastic Scrap Recycling and Contaminated Plastic Scrap Recycling. With the Non-Contaminated Plastic Scrap Recycling, we can haul off your Non-Contaminated Plastic Scrap, Process it, and bring it back to your Business. Through this Process we can help you to improve your Business Raw Plastic Supply Chain and also help your Business to save money.**

### **(Cardboard & Cardboard Corrugate Recycling)**

**We have access to a number of Certified Companies that we work with in order to help you to better maintain your Corrugate Cardboard Scrap Process. It is important for any Business, especially new Corrugate Cardboard Businesses to**

have a way to properly maintain and recycle their Corrugate Cardboard in order to save money. As well, we can find Businesses that are willing to buy your Corrugate Cardboard Scrap for their own personal usage.

### **(Metals)**

Does your Business have any precious Metals laying around that you have no way of recycling it? Any Copper or Aluminum? Through our Metals Project Management Services we can gather your much needed Scrap Metals, separate them from the material of usage, grind the Metals up, re-package them, and urgently have them back to you on time. We will even provide Bins for your Scrap Material so that they can be properly separated and labeled.

### **(Construction Bins, Portable Restrooms, & Equipment Services)**

Every Construction Project needs access to Bins, Portable Restrooms, And Equipment. Without having the right Construction Bins for your Construction Project on-site, you could lose a lot of space and production time. We can provide Round-The-Clock Construction Bin Services where you can properly separate Scrap from your Construction Site, have it properly hauled off, and returned back to you on time.

### **(Wastewater Treatment Services)**

Does your Business need help with making your Wastewater Treatment Process better? It is very important that your Business stay within the confinements of State and Industrial Wastewater Regulatory Laws. Our Vendors can provide Wastewater Tests & Treatment Solutions, Water Pollution Barrier Products, Oil Spill Clean-Up Agents, Oil-Drying Agent Products, Contaminated Agents Removal, Oil Spill Clean-Up Tools, and Oil Spill Disposal Bins. We can even provide Hauling Services for your Contaminated Bins.

### **(Root-Cause Analysis & Consultation)**

**Greatly decrease your Turnover Rate and Scrap Rate with a Root-Cause Analysis Program designed to push Green Results. People wise and Production wise. Our Program is designed to be detailed in every aspect in creating a Root-Cause Analysis System specifically just for your Plant. Getting to the very specifics that will help you to see the Results that you need or want to see. We will work closely with your IT Department, Engineering Department, Maintenance Department, and Employees in order to better increase your Production Flow Process.**

### **(Cleaning Knit Rags Assorted Colors)**

**Are you a new Manufacturing Business needing low cost cleaning rags? Or a Manufacturing Business that is well known needing low cost cleaning rags? We have access to Assorted Bales of Knit Rags of Assorted Colors used for daily clean-up, spills, and stains. Designed for dirt, oil, water, cleaning products, cleaning projects, bodily fluids, and dust. Keep your Workspaces and Work Areas safe by buying directly from us. Shipping Rates do apply.
