

Tony Occhiuto- "Italian Gold"- WEBR 1440

WEBR is proud to announce the addition of a new, weekly hometown Italian Radio program to serve Western New York and Southern Ontario's huge Italian American communities, called "Italian Gold." Selected to host and MC the new program is a member of the local Italian community, Tony Occhiuto. Tony was born in Italy and migrated to Buffalo with his family at an early age. Tony has years of experience in the radio world, having previously presented Italian programming on numerous radio stations. He speaks fluent Italian and has been deeply involved with Italian Heritage clubs including Circolo Sportivo Italia, as well as a supporter of the new Italian Cultural Center of Western New York. This new program, "Italian Gold," will not only serve the Italian community, but it also provides interesting insights into Italian culture, local history, Italy's great cuisine, and much more. Of course, in addition to great music, Tony will feature interviews and current information about ongoing events and activities. Tune in every Sunday from 11am until 12pm to hear this new program!
