

Custom Cabinetry Catalog

Kitchens | Wet Bars | Mudrooms | Vanities | Built-Ins

Every cabinet designed, built, and installed to fit your space exactly.

Plywood boxes. Solid face frames. Soft-close hardware.

Backed by 40+ years of cabinet-making experience.

Serving the Twin Cities East Metro & Western Wisconsin

651-468-4312 | Mike.Mooney@mccustombuild.com | mccustombuild.com

Some images are design renderings. Every piece is built to order in Baldwin, Wisconsin.

Every MC Custom cabinet starts with the same construction standard, whether it's a full kitchen or a single vanity. This is what's inside every box we build:

Plywood Boxes

Cabinet boxes are built from plywood — not particle board — for strength, screw-holding, and moisture resistance.

Solid Hardwood Face Frames

Face frames are milled from solid hardwood and joined square, giving every opening a rigid, true frame.

Soft-Close Hardware

Doors and drawers close quietly on premium soft-close hinges and undermount slides.

Built to Your Space

No stock sizes. Every cabinet is dimensioned to your walls, ceilings, and layout — scribed and fitted on site.

Finished Your Way

Painted, stained, or two-tone. Sprayed finishes in the shop for a smooth, durable surface.

Installed by the Builder

The same hands that build your cabinets install them. No handoff, no subcontracted install crew.

How to Use This Catalog

Browse the project types on the following pages, then pick your door style, drawer face, crown, and base trim from the selection guides. Bring your choices to your free estimate — or just show us an inspiration photo and we'll spec it for you.

Two-tone inset kitchen — navy island, cream perimeter, custom wood hood surround. Shown as design rendering.

Complete custom kitchens — perimeter runs, islands, pantry walls, and hood surrounds — designed around how you cook and live. We handle layout, build, finish, and installation as one continuous job, so the details line up: stiles align across runs, crown dies cleanly into walls, and fillers disappear.

Popular additions

- Furniture-grade island with seating overhang
- Floor-to-ceiling pantry walls with rollouts
- Custom hood surrounds
- Glass display uppers with lighting
- Appliance panels for a built-in look

Every kitchen is priced individually. Free in-home estimates.

MC Custom wet bar — painted cabinetry with floating shelves, wine lattice, and stemware rack.

Basement bars, butler's pantries, and coffee stations built to feel like furniture. We combine base cabinets, floating shelves, wine storage, and glass racks into one fitted piece — sized to your wall, wired for your lighting, and finished in any color.

Popular additions

- Wine lattice or cubby storage
- Floating hardwood display shelves
- Stemware racks and glass uppers
- Beverage fridge and ice-maker openings
- Stone or butcher-block tops

Mudroom lockers with bench seat, shoe cubbies, shiplap back, and crown — shown as design rendering.

Drop-zone lockers, bench seats, and cubby storage built for Midwest winters — boots, backpacks, coats, and dog leashes all get a home. Built-in construction means no gaps to lose mittens behind and no wobbly freestanding units.

Popular configurations

- Open lockers with coat hooks and hat shelf
- Bench seat with boot storage below
- Closed uppers for seasonal gear
- Bead-board or shiplap backs
- Charging drawer for devices

Full-overlay double vanity with drawer banks, brass pulls, and matching linen tower. Shown as design rendering.

Single and double vanities, linen towers, and medicine cabinets built to your bathroom's exact dimensions. Furniture details — legs, feet, open shelves — available for a freestanding look with built-in stability.

Popular additions

- Full-extension dovetail drawer banks
- Matching linen towers
- Open towel shelves
- Furniture legs and decorative feet
- Recessed or surface medicine cabinets

Shiplap fireplace chase with marble tile surround, white oak mantel, and flanking built-ins. Shown as design rendering.

Fireplace surrounds, floor-to-ceiling bookcases, window seats, and entertainment walls — designed and built to look original to the home. Mantels, shelving, and cabinetry combined into one seamless piece with the same construction as our kitchens.

Popular configurations

- Fireplace surround with flanking bookcases
- Media wall with hidden component storage
- Window seat with drawer storage
- Home office built-in with desk
- Floating shelves over base cabinets

Cabinet Door Styles

All door styles available painted or stain-grade, in overlay or inset construction, in 40+ wood species (see Wood Species page). Painted doors can be built with MDF center panels to resist seasonal cracking at panel joints.

Shaker

Our most popular. Clean 5-piece frame, flat center panel.

Slim Shaker

Narrow rails for a lighter, more modern frame.

Beaded Shaker

Shaker frame with a bead detail around the panel.

Slab

Flat one-piece door. Minimal, modern, easy to clean.

Raised Panel

Traditional profile with a raised center panel.

Glass Front

Frame door with glass panel for display uppers.

Also available

Mitered-frame doors, cathedral and arched-top doors, beadboard and plank doors, applied-moulding doors, split-panel configurations, and mullioned glass doors in multiple grid patterns — plus dozens of edge profiles from square to roundover to ogee. Ask to see the full style book at your estimate.

Drawer Face Styles

Drawer faces typically match your door style, or mix and match on request. Every drawer runs on soft-close undermount slides, with dovetail box upgrades below.

Slab

Flat face; pairs with slab or slim-shaker doors.

5-Piece Shaker

Framed face matching shaker doors.

Slim Shaker

Ultra-thin frame matching slim-shaker doors.

Beaded

Bead detail matching beaded shaker doors.

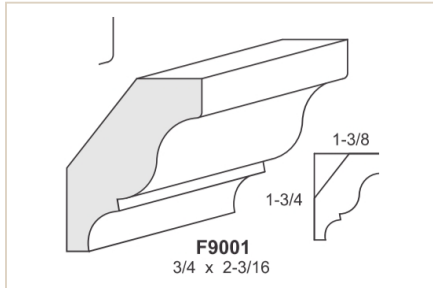

Drawer Box Upgrade

Standard boxes are plywood with soft-close undermount slides. Upgrade to solid-maple dovetail boxes, pre-finished with a clear lacquer coat — with the MC Custom logo engraved inside each box as our signature of handcrafted work.

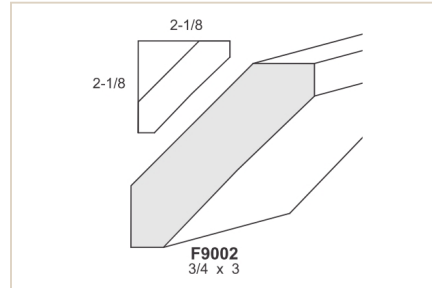

Crown Moulding — Stocked Profiles

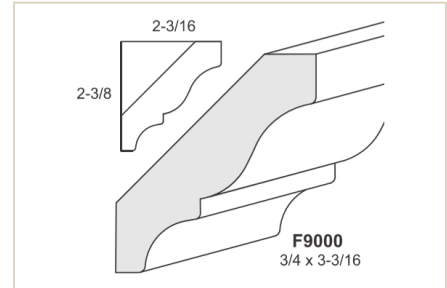

Nine crown profiles we stock and install, shown with cross-sections and actual sizes from our millwork shop's specification book. Every profile is milled in the same wood species as your doors so stain matches perfectly.

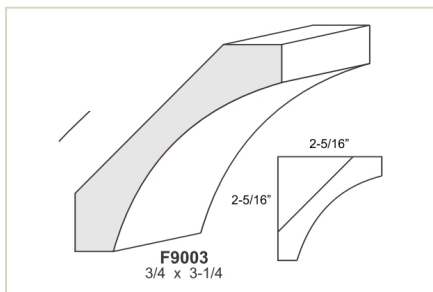

F9001 3/4" x 2-3/16" — petite

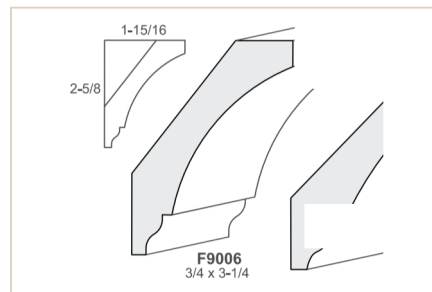

F9002 3/4" x 3" — plain sprung

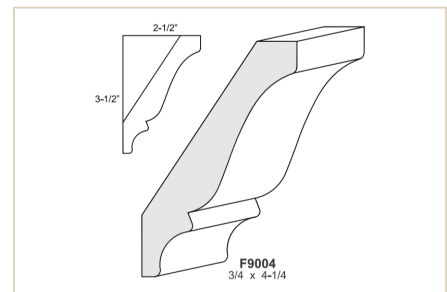

F9000 3/4" x 3-3/16" — classic

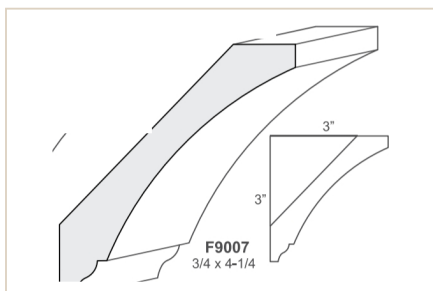

F9003 3/4" x 3-1/4" — cove

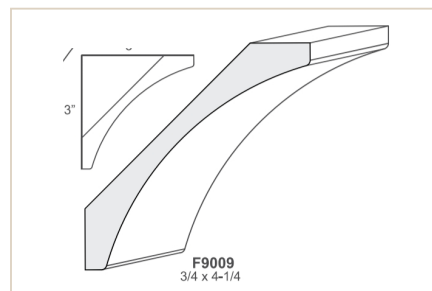

F9006 3/4" x 3-1/4" — traditional

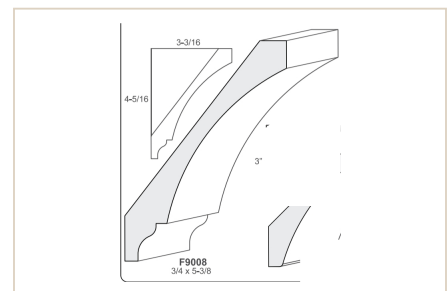

F9004 3/4" x 4-1/4" — grand

F9007 3/4" x 4-1/4" — cove & bead

F9009 3/4" x 4-1/4" — sweep cove

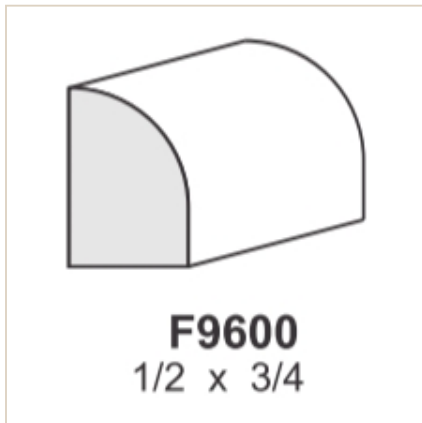

F9008 3/4" x 5-3/8" — estate

Milled in any species, any quantity, matched to your doors. Stacked build-ups, light rail, and custom profile matching also available — we can match nearly any existing crown in your home. Physical samples at your estimate.

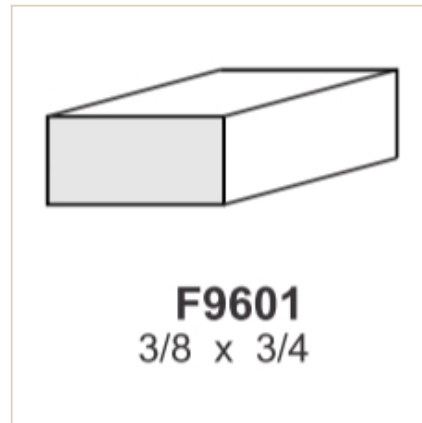

Shoe & Corner Moulding

The finishing pieces for cabinet runs and floors, from the same millwork shop as our crown — milled in any species, painted or stained to match your cabinetry and floors.

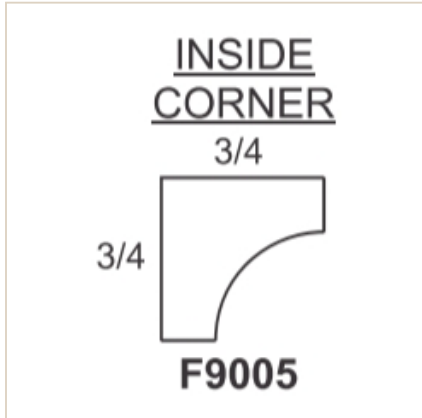

Quarter-Round Shoe

F9600 · 1/2" x 3/4" — classic rounded shoe covering the floor gap

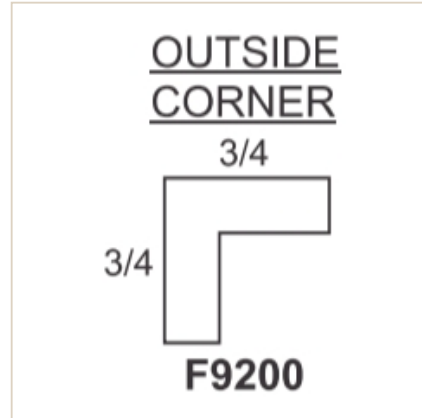

Flat Shoe

F9601 · 3/8" x 3/4" — low-profile square shoe for a modern line

Inside Corner

F9005 · 3/4" x 3/4" — coved corner where cabinet faces meet

Outside Corner

F9200 · 3/4" x 3/4" — wraps exposed corners on islands and end panels

Whole-house trim

Full baseboard packages — flat single-piece, 3-piece base, and craftsman base — plus door and window casing are available through our finish carpentry service to match your cabinetry.

Every cabinet is available in your choice of species — painted, stained, or clear-coated. These are the species we build with most; many more are available on request.

Paint-Grade

The smooth, stable choice for painted cabinetry.

- Poplar
- Soft Maple
- Pine
- MDF frame & panel
- Paint-grade w/ MDF panel

Popular Stain-Grade

Classic hardwoods that take stain beautifully.

- Red Oak
- White Oak
- Hard Maple
- Cherry
- Hickory
- Birch
- Alder
- Walnut

Specialty & Premium

Distinctive grain for statement pieces.

- Quartersawn White Oak
- Rift-Sawn White Oak
- Quartersawn Maple
- Birdseye & Curly Maple
- African Mahogany
- Ash / Beech / Elm
- Douglas Fir

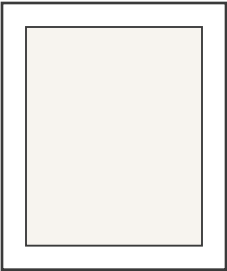

A note on painted doors

Solid wood expands and contracts with Midwest seasons, which can show as hairline cracks at panel joints on painted doors. For painted finishes we typically build with an MDF center panel in a solid hardwood frame — the paint stays crack-free while the door keeps its solid-wood strength. Stain-grade doors always use solid wood panels.

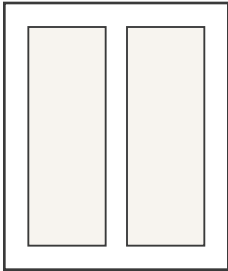

Door Styles (1 of 2)

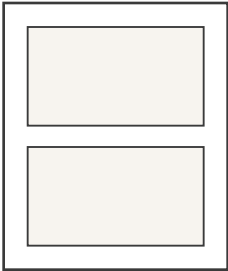

Every door below is orderable by style number in any species, painted or stained. Square doors shown with flat panels; raised panels available on all framed styles.

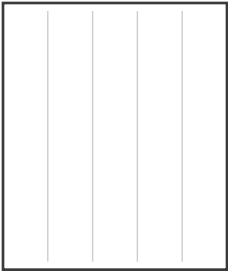

200-00

200-01

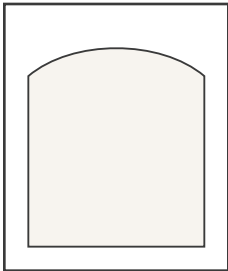

200-02

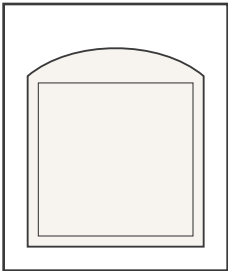

201-00

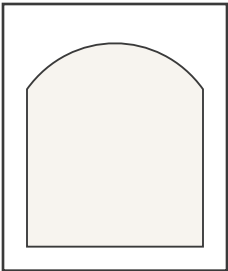

202-00

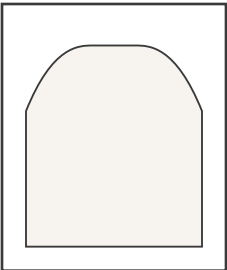

210-00

220-00

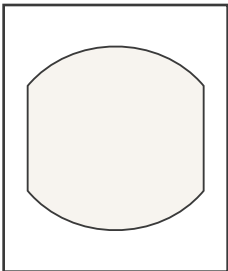

221-00

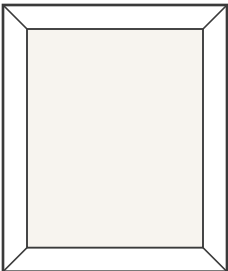

222-00

225-00

226-00

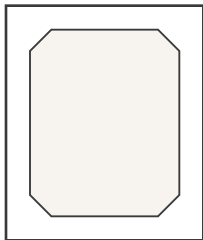

290-00

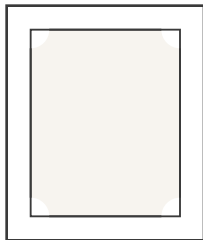

Standard styles run on standard lead times. Rail widths by style: 3-1/4", 3-3/4", or 4-1/4" arched top rails; all outside frame parts 2-1/4" standard (2-3/16" after edging). Mitered door 290-00 combines with nearly any panel profile.

Door Styles (2 of 2)

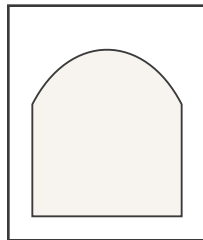

Custom and specialty styles — arched, eyebrow, and radius doors, plank and beadboard, battened slabs, and applied-moulding doors. Custom styles may carry longer lead times.

280-00

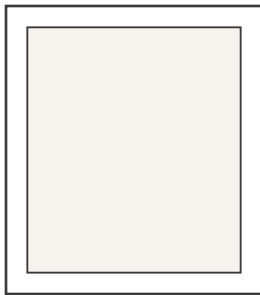

295/296

203-00 is a solid slab with battens to prevent warp (warranty applies). 206-00 plank and 207-00 beadboard suit farmhouse and cottage work. 280-00 applied-moulding doors pair with profiles 2901–2929. 295-00 / 296-00 are mortise-and-tenon drawer fronts with reduced rails to match doors.

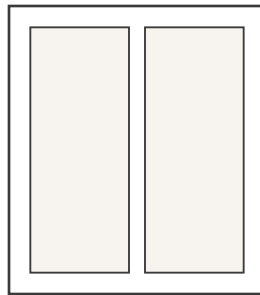

Panel Splits & Glass Doors

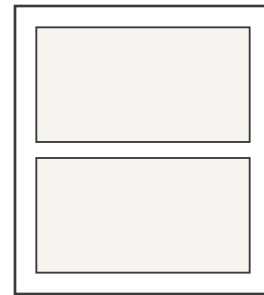

Most door styles can be ordered in split-panel configurations by adding a two-digit suffix, and most framed styles can be ordered as glass doors with or without mullion grids.

-00 single panel

-01 vertical split

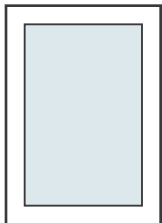

-02 horizontal split

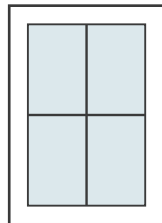

Horizontal split ratios (suffix)

doors.

Ordering Options & Specifications

The fine-tuning options behind every door and drawer we order — so your cabinetry fits your home exactly, not the other way around.

Custom Frame Widths

0-1020 1-1/4" 0-1021 1-1/2" 0-1022 1-3/4"
0-1023 2" 0-1024 2-1/4" (standard) 0-1025 2-1/2"
0-1026 2-3/4" 0-1027 3" 0-1028 4"

Radius Outside Door Corners

0-1070 1/8" 0-1071 1/4" 0-1072 3/8"
0-1073 1/2" 0-1074 3/4" 0-1075 custom

Grain & Special Doors

0-1005 vertical grain · 0-1006 horizontal grain
0-1002 corner door (one stile 3/4" wider, right or left)

Drawer Fronts

202-00 slab 3/4" — horizontal grain standard; edges
E-580, E-581, E-582 or any edge profile
295-00 mortise & tenon, 1-1/2" rails · 296-00 M&T,
1-3/4" rails — profiles match doors

Concealed Hinge Boring

Standard 35mm cup, 1/2" deep, 3mm offset — fits most
Blum hinges. Option A (cup + pilot holes) or Option B
(cup only).
Placement: 2 hinges to 46" door height, 3 hinges to 66",
4 hinges to 96" — set 2" or 3-1/2" from door edge.

Dovetail Drawer Boxes

Solid maple 5/8" sides with eased edges, 1/4" bottoms
inset 1/2" — heights 2" to 15" (custom heights
available).

Options: scoop front, side tabs, notch-and-drill for
undermount slides, ready-to-assemble.

Custom boxes: any species, melamine bottoms, 1/2"–3/4"
side thickness, any height in 1/16" steps.

Drawer Box Finishing

Pre-finished: vinyl seal coat + clear satin lacquer
(adds 3–5 days).

Options: water-based finish, finished underside, double
coat.

Engraved Signature

The MC Custom logo laser-engraved inside drawer boxes
(up to 3-1/2" x 2") — our signature upgrade on premium
projects.

Crown & Moulding Program

All crown, shoe, and corner profiles milled in any
species, any quantity — matched to your doors.

Random lengths standard; specified lengths available
(10' +15%, 10–12' +20%, 12–14' +25%).

Every selection above is spelled out on your written quote's Material Selections sheet — nothing
is ordered without your approval.

1. Free Estimate

Call, email, or use the contact form at mccustombuild.com. We'll talk through your project, look at the space, and take measurements. Inspiration photos welcome — screenshots, Pinterest boards, magazine pages, anything.

2. Design & Quote

You'll receive a written quote with a materials selections sheet — door style, finish, crown, and trim spelled out so there are no surprises. One lump-sum price, no hidden line items.

3. Build

Your cabinetry is built and finished in our shop. We take on a limited number of projects at a time, so your job gets our full attention. We keep you posted with photos as it comes together.

4. Install

The builder installs — scribed to your walls, leveled, and finished with the crown and trim you picked. Clean job site, walk-through at the end, and we don't leave until it's right.

Ready to start your project?
