

66% Space Efficiency Advantage

Elevage-Sustainable-Barrels™ are a winner when it comes to active storage, logistics and productivity benefits compared to other barrels. Information below provides an estimated comparison of space efficiency between 225 litres/60gal barrels and **Elevage-Infiniti™**. Each example has been calculated on the same floor footprint area equal to 100 square meters (10 x 10 meters) or 1,076 square feet (32.8 x 32.8 feet), putting aside further ease of stack-ability advantages. **Contact us for assistance in calculating how you take advantage of 66% space saving efficiency and access productivity benefits with your infrastructure and overheads.**

	Stack	capacity each	Units per 100m ²	Total capacity per 100m ²
Cube	2	1,500 litres / 397 gal	112	168,000 litres / 44,381 gal
Barrel	6	225 litres / 60 gal	600	135,000 litres / 35,700 gal

	Stack	capacity each	Units per 100m ²	Total capacity per 100m ²
Cube	2	2,000 litres / 530 gal	112	224,000 litres / 59,200 gal
Barrel	6	225 litres / 60 gal	600	135,000 litres / 35,700 gal
