

Overview

An accomplished professional in green business, resilient cities, public relations, and responsible development. Jeremy delivers creativity, leadership, and hard-won results that facilitate the equitable, sustainable transition of buildings, businesses, and cities. Entrusted as brand ambassador and chief liaison with top executives and the public.

Portfolios:
[Communications](#)
& [Clean Energy](#)

Experience

- PowerStack USA** – Austin, TX ([link](#)) **2022 – Present**
Chief Operating Officer
- Leading internal operations and external affairs for an exciting Texas-based manufacturer of a sleek and sturdy solar + storage solution. We make attractive, self-powered poles and bollards for smart cities.
- PlanetSigmon, LLC** – Danbury, CT and Austin, TX ([link](#)) **2020 – Present**
Principal
- In various roles with partners and clients, my work is helping zero carbon policymaking, community resilience, post-pandemic building re-entry, and bringing green building technologies to market.
- Etopia USA, Inc.** – New York, NY and Austin, TX ([link](#)) **2021 – 2022**
CEO and Treasurer
- Leading the go-to-market strategy, logistics, business planning, and project execution for an innovative UK technology and homebuilding company working to mainstream smart, quality, high-performance homes.
- U.S. Green Building Council** – Washington, DC ([link](#)) **2007 – 2018**
Director, Technical Policy *2012 – 2018*
- Across a nationwide network of thousands of professional members, companies, elected officials, and partners, built state and local policy programs for green buildings, schools, and cities resulting in many victories.
- Manager, Building Codes Advocacy *2010 – 2012*
- Led the development of company strategy to scale systems change by aligning LEED with building regulations and coordinating technical standards development, resulting in nationwide partnerships and campaigns.
- Advocacy Associate, State & Code Initiatives *2008 – 2010*
- A national network of thousands of building industry professionals and advocates trusted me for guidance and thoughtful materials to advance the green building agenda, a role I maintained throughout my USGBC tenure.
- Coordinator, Advocacy & Board Communications *2007*
- By supporting the CEO and board of directors, I gained early access to top industry actors, their thinking, and the strategic planning process. I maintain these relationships throughout and beyond my years at USGBC.
- AltPower, Inc.** – New York, NY ([link](#)) **2001 – 2006**
Project Manager *2004 – 2006*
- Supervised planning and install of 1.5 MW of PV projects, enough to power 400 homes, learning to manage budgets, sales, personnel and problem resolution after serving as Project Associate (summers 2001-2003).
