

WHAT CAN YOU DO TO HELP?

There are many ways to get involved and help. SCART makes it easy and is always looking for passionate volunteers. There are two types volunteer opportunities: **Disaster Responder or Community Volunteer**. A **Disaster Responder** is trained, credentialed and prepared to respond in a disaster situation, when contacted through the proper disaster response team notification process. A **Community Volunteer** is active within the local community and does not respond to a disaster. This type of volunteer acts as an advocate, educator and supporter. These volunteers may also be a disaster responder if they so choose.

Besides volunteers, here are some ways to prepare your pet for when disaster strikes by packing an emergency kit.

Here's what to pack:

- Leashes, harnesses, or pet carriers
- Food, safe drinking water, cat litter/pan, and can opener for canned food
- Medications and copies of medical records in waterproof container
- First aid kit
- Current photos of you with your pets in case they get lost
- Pet beds and their favorite toys

In case you have to board or foster your pet, create a sheet with feeding schedules, medical conditions, behavior problems, and name and number of your vet.
