Grant Program Management

Your dedicated Project Manager will include our executive team to work with you to make decisions in your best interest, to include guidance on eligible costs and documentation services to assist awardees and subrecipients of eligible expenses.

Compliance & Project Closeout

We adhere to all Federal 2 CFR 200 compliance measures throughout the life of the grant, including timeline tracking of milestones and administrative and process monitoring.

Audit Ready Assistance

We are available to liaise with auditors and manage the grant audit engagement effectively and efficiently.

Emergency Management & FEMA Assistance

Program management, planning, training and exercises support services. From development of an emergency operations plan, to continuity of operations plan, to emergency preparedness training, our expertise can guide the best solutions.

Mitigation and Recovery

YGS partners helps communities identify, prioritize and implement mitigation measures that align with their recovery goals and future resilience.
