

BUILDING PERMIT APPLICATION

The Village of Bloomington strives to support your project with prompt, courteous, and professional assistance. Although a formal permit process is followed, we are happy to schedule time to speak with you informally about your project. The Village contracts with General Engineering Company for building inspection services. For questions or to discuss your project, please contact:

Josh Copsey, Building Inspector

Phone: (608) 697-2905

Office Hours: Wednesdays | 8:00 a.m. – 11:00 a.m.

When is a Building Permit Required?

A building permit is required any time a building or other structure is built, enlarged, or altered, when heating or ventilation systems are installed, when changes to the electrical or plumbing system are made, or when any changes are made that would affect the fire hazards or safety of the building.

Repairs or alterations to a building that do not involve structural changes, such as replacement of windows or installation of appliances that do not require rewiring, do not require a permit.

Permits must be obtained before ground is broken for a new building or addition, or before alterations begin, whichever occurs first.

Building Permit Procedures

A Building Permit Application (attached) along with a complete set of building plans and specifications should be submitted to the building inspector. If the building inspector determines that all necessary requirements are met, a building permit will be issued which shall be kept and displayed at the building site. Building permit fees are determined by the building inspector per the Village's fee schedule. Fees must be paid at the time the permit is issued. Fees shall be paid via cash or check and made payable to General Engineering Company.

No work shall begin until you have an approved permit.

INSTRUCTIONS

The owner, builder or agents shall complete the application form down through the Signature of Applicant block and submit it and building plans and specifications to the enforcing jurisdiction, which is usually your municipality or county. Permit application data is used for statewide statistical gathering on new one- and two-family dwellings, as well as for local code administration. **Please type or use ink and press firmly with multi-ply form.**

PERMIT REQUESTED

- Check off type of Permit Requested, such as structural, HVAC, Electrical or Plumbing
- Fill in owner's current Mailing Address and Telephone Number.
- If the project will disturb one acre or more of soil, the project is subject to the additional erosion control and stormwater provisions of ch. NR 151 of the WI Administrative Code. Checking this box will satisfy the related notification requirements of ch. NR 216.
- Fill in Contractor and Contractor Qualifier Information. Per s. 101.654 (1) WI Stats., an individual taking out an erosion control or construction permit shall enter his or her dwelling contractor certificate number, and name and certificate number of the dwelling contractor qualifier employed by the contractor, unless they reside or will reside in the dwelling. Per s. 101.63 (7) Wis. Stats., the master plumber name and license number must be entered before issuing a plumbing permit.

PERMIT LOCATION

- Fill in Building Address (number and street or sufficient information so that the building inspector can locate the site.
 - Local zoning, land use and flood plain requirements must be satisfied before a building permit can be issued. County approval may be necessary.
 - Fill in Zoning District, lot area and required building setbacks.
1. PROJECT DATA – Fill in all numbered project data blocks (1-11) with the required information. All data blocks must be filled in, including the following:
 2. AREA (involved in project):
 - Basements – include unfinished area only
 - Living area – include any finished area including finished areas in basements
 - Two-family dwellings – include separate and total combined areas
 3. OCCUPANCY – Check only "Single-Family" or "Two-Family" if that is what is being worked on. In other words, do not check either of these two blocks if only a new detached garage is being built, even if it serves a one or two family dwelling. Instead, check "Garage" and number of stalls. If the project is a community based residential facility serving 3 to 8 residents, it is considered a single-family dwelling.
 4. USE – Seasonal, permanent or other.
 7. ESTIMATED BLDG COST – Include the total cost of construction, including materials and market rate labor, but not the cost of land or landscaping.
 10. SEWER – A building permit cannot be issued until a sanitary permit has been issued for any new or affected existing private onside wastewater treatment system.

SIGNATURE – The owner or the contractor's authorized agent shall sign and date this application form. If you do not possess the Dwelling Contractor certification, then you will need to check the owner-occupancy statement for any erosion control or construction permits.

CONDITIONS OF APPROVAL – The authority having jurisdiction uses this section to state any conditions that must be complied with pursuant to issuing the building permit.

ISSUING JURISDICTION: This must be completed by the authority having jurisdiction.

- Check off Jurisdiction Status, such as town, village, city, county or state and fill in Municipality Name
- Fill in State Inspection Agency number only if working under state inspection jurisdiction.
- Fill in Municipality Number of Dwelling Location
- Check off type of Permit Issued, such as construction, HVAC, electrical or plumbing.
- Fill in Wisconsin Uniform Permit Seal Number, if project is a new one- or two-family dwelling.
- Fill in Name and Inspector Certification Number of person reviewing building plans and date building permit issued.

Cautionary Statement to Owners Obtaining Building Permits

101.65(lr) of the Wisconsin Statutes requires municipalities that enforce the Uniform Dwelling Code to provide an owner who applies for a building permit with a statement advising the owner that:

If the owner hires a contractor to perform work under the building permit and the contractor is not bonded or insured as required under s. 101.654 (2) (a), the following consequences might occur:

(a) The owner may be held liable for any bodily injury to or death of others or for any damage to the property of others that arises out of the work performed under the building permit or that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.

(b) The owner may not be able to collect from the contractor damages for any loss sustained by the owner because of a violation by the contractor of the one- and two- family dwelling code or an ordinance enacted under sub. (1) (a), because of any bodily injury to or death of others or damage to the property of others that arises out of the work performed under the building permit or because of any bodily injury to or death of others or damage to the property of others that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.

Cautionary Statement to Contractors for Projects Involving Building Built Before 1978

If this project is in a dwelling or child-occupied facility, built before 1978, and disturbs 6 sq. ft. or more of paint per room, 20 sq. ft. or more of exterior paint, or involves windows, then the requirements of ch. DHS 163 requiring Lead-Safe Renovation Training and Certification apply. Call (608) 261-6876 or go to the Wisconsin Department of Health Services' lead homepage for details of how to be in compliance.

Wetlands Notice to Permit Applicants

You are responsible for complying with state and federal laws concerning the construction near or on wetlands, lakes, and streams. Wetlands that are not associated with open water can be difficult to identify. Failure to comply may result in removal or modification of construction that violates the law or other penalties or costs. For more information, visit the Department of Natural Resources wetlands identification web page or contact a Department of Natural Resources service center.

Additional Responsibilities for Owners of Projects Disturbing More One or More Acre of Soil

I understand that this project is subject to ch. NR 151 regarding additional erosion control and stormwater management and will comply with those standards.

Owner's Signature: _____ Date: _____

Contractor Credential Requirements

All contractors shall possess an appropriate contractor credential issued by the Wisconsin Division of Industry Services.
