Key Message

Wendy's thought-provoking presentation "Ask Yourself" will encourage you to think beyond the typical file cabinet, bridging the gap with details outside the professional planning process.

- Discover things you may have never considered.
- Motivation to take proactive action that will ease the struggles of your loved ones.
- You want your family and friends to have good memories of you, and not the long lasting ones of what a gigantic mess you left for them to figure out.

By taking one step at a time, you can leave a clear roadmap for loved ones (or designated responsible person) and attain peace of mind for yourself.
