

SEPTEMBER

Newsletter!

A note from the Principal

This is going to be a wonderful school year! Our goals for staff and students are to **build relationships** and **increase responsibility** for making our school the best in the world of Christian Schools. Let's start with making our drop off and pick up process safe, smooth, and satisfying for all. Please stay aware of cars and children during drop off and pick up times. **West Campus** - during pick-up: single lane coming in and once around the turn, three lanes are available.

What is new: Gradelink

Gradelink is new and you can check your child's progress, grades, homework, etc. If you have not received your login information, please check in with **Ms. Kim @ the main campus** or **Ms. Jen at the West Campus**. You can download the app in the apple store and apps on google play. This gives you the access to also communicate with staff. Welcome September! When will this heatwave end? Whew! Has it been hot! Can you all believe that we have already made it through the month of August? School is in full swing at both campuses! **WEST Campus**: Please remember that this facility does not have water fountains. We ask that you provide your child with a reusable water bottle so they can fill it throughout the day.
