The **NEXT GENERATION** in vegetation control. Discover how affordable it is to own a Polecat mower.

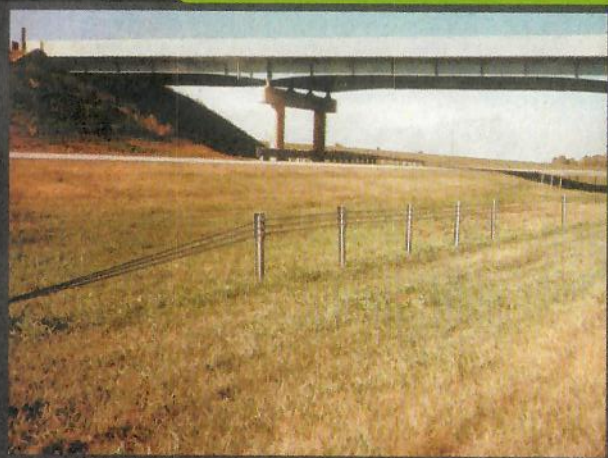

At TKIndustries we understand the importance of vegetation control for safety and appearance. The Polecat mower is the answer for fast efficient mowing around objects, under and around guardrails, and both sides of the fence. If you are continuously looking for the best and most efficient way to manage your operation, the Polecat is a must.

Before the POLECAT

After the POLECAT

The Dynamic Object Avoidance System (D.O.A.S.)

controls vegetation around
and under guardrail with ease.
