

DIGGING DEEPER:

LOOKING DEEPER, THE SOIL COURSE REIMAGINING AGRICULTURE

Wednesday 8th October
till Friday 10th October

8:00am - 5:30pm each day

Danthonia

4188 Gwydir Highway
Elsmore NSW 2360

PRESENTERS

Phill Lee (Regenerate Earth),
Dr Gundi Rhoades (Local Veterinarian
and Regenerate Earth team member)
Johannes Meier (Local Farmer)

WHAT YOU WILL LEARN

- Use microscopes and soil sampling techniques to assess soil life.
- Recognize soil health indicators using observation, touch, smell, and structured fieldwork.
- Explore the connections between soil health, climate regulation, and human wellbeing.
- Apply principles of regenerative agriculture, including rotational grazing, cover crops, and biostimulants.
- Reflect on personal farming practices and identify actionable changes to begin implementing at home.

MORNING, AFTERNOON TEA
AND LUNCH PROVIDED
