

The Swamp Dawkins Hoedown & Bushband was created to cater for an increasing number of clients who wanted something more than a traditional bushdance with a traditional bushband.

Swamp Dawkins plays a wide range of bush, barn and square dances mixed seamlessly with songs that will entertain and create the atmosphere that you want – and we play it with first rate musicians who have backgrounds in the music and events/entertainment industries so that every event is executed with the highest level of professionalism and musicianship.

Our formula involves mixing well known songs from American country and western through to Australian classics with bush, barn and square dances. The music comes from the 60's, 70's and 80's through to today whilst the dances have roots in traditional called dances done with a modern twist.

The result is a unique combination of music and dancing that will have everyone entertained and on the dance floor all night. All the bush, barn and square dances are called and taught on the night – no experience is necessary! As for the rest of the music – we cater for requests and have an extensive repertoire from quiet pre-dinner music to blues, rock and country, to well-known party hits.
