

# LOVE CONQUERS ALL

SONG OF SOLOMON 8:6-7 & COLOSSIANS 3:14-16

INTRO ...

Oh Michael, the greatest entertainer! We summon you to come and perform your moonwalk ritual to establish world peace, oh great Michael.

Many powerful nations depend on a **military** for security and power; however, the **military** only fill the **cemetery** with dead bodies. So, let's **bury** the hatchet by ending these wars with peace with our **adversary**, then become real friend with each other instead of **imaginary** friend that is based on a signed treaty. It became **customary** via a long-continued practices to deem love **necessary** among the human race, because anything that is **contrary** to love and mutual respect and understanding is the **very** reason for wars. So, I am not the one to use **contemporary** ways of fighting, which men teach in their worldly **seminary**. I use ancient ways to fight my battle in GOD'S **sanctuary**.

HOOK:

Noting that you can do can **destroy love**.  
You might as well chill and **enjoy love**.  
Don't deploy your tanks and troops; **deploy love**.  
Now you see why the fuck they call your **boy, Love**.  
Everybody who knows that it's **about love**,  
throw your hands in the air and **shout love**.

Anyone who believes that war is the answer is **insane**.  
Nothing to me is worth the risk of losing a life to **gain** it. You lose everything to save a life; so, let's do the **humane** thing by not taking sides in these **vain** senseless wars. We should **remain** on the side of peace to save all lives in Palestine, **Ukraine**, Israel, and Russia, too, because GOD has called us to **maintain** unity among us with peace (Col. 3:15). Therefore, do not give a **package** of mass destruction to fight a small **village**, or take a **hostage** to gain an **advantage**. These news **coverage** calls these gangs, "**savage**", for the death of innocent lives in the crossfire, and **damage** to property, but when a regime does this, they spread a **message** to **encourage** death on both sides of the **scrimmage** line of wars.

HOOK:

Noting that you can do can **destroy love**.  
You might as well chill and **enjoy love**.  
Don't deploy your tanks and troops; **deploy love**.  
Now you see why the fuck they call your **boy, Love**.  
Everybody who knows that it's **about love**,  
throw your hands in the air and **shout love**.

Nothing is wrong with taking a **leap** of faith; so, let's take a **leap** of faith to love, because love is the only thing to bring and **keep** us together. Moreover, the benefit of what we will **reap** together, if we sow love. We will **reap** the benefit to **sleep** together in the abundance of peace and safety. Nothing is **cheap** about love. It takes a lot of work and time for the **upkeeps** of a peaceful unity in any type of relationship. Love is so **sacred**; therefore, no one should direct any **hatred** towards it. Why even waste your time to hate love? It's **invincible**; therefore, it creates an **unbreakable** bond. So **valuable**, love makes to last forever regardless of **unforeseeable** condition. Therefore, love manifests the most precious gathering.

HOOK:

Noting that you can do can **destroy love**.  
You might as well chill and **enjoy love**.  
Don't deploy your tanks and troops; **deploy love**.  
Now you see why the fuck they call your **boy, Love**.  
Everybody who knows that it's **about love**,  
throw your hands in the air and **shout love**.

OUTRO:

I thought that a gang war was bad; nevertheless, it is no comparison to wars between these governments, because a war between two gangs rarely extends to include other gangs; however, when two countries are at war, the whole world want to get involved; for example, most nations are either supporting the Israeli or the Palestinians or supporting Russia or Ukraine. However, the international community should only support to help end the war regardless of who started the war. Yet the involvement of these nations via the United Nation, which is supposed to symbolize an international community, no longer serve its purpose to establish world peace, but are guilty of instigating a world war. In other words, when you take a side in a war, you create distrust, and instigate the involvement of other nations to become involved to fight in the war ... with governments like these, who need gangs!

Moreover, if you want to secure your borders, it is wiser to work with countries on your borders to become your ally than to make a nation that is thousands of miles away from you. Therefore, the Palestinians and Israeli need to focus more on a relationship with each other than with Iran or America; moreover, Ukrainians and the Russians need to take this

advice, too, because no one can pose a greater threat to you than those around you. In other words, it is detrimental to the existence of your people, nation, security and safety to not love your neighbors - which bring me back to the subject of this discourse, which is love (Matthew 22:37-40).

There is no greater love than to lay your life down for a friend (John 15:13). Therefore, a great leader will not sacrifice the lives of his followers to sustain or save his existence, power, land, position, business et cetera; on and to the contrary, a great leader will sacrifice his life, position, land, power and everything else to save the lives of his people.

Consequently, you barely can find a person to die for a righteous person, and maybe for a good person, but you will never find a person to die for his or her enemy. Yet CHRIST JESUS died for HIS enemies and forgave us for our sin while dying on the cross (ROMANS 5:6-11); therefore, if you are CHRISTLIKE, then you will love your enemy, because when you hate your enemy by acting like your enemy, then you are no better than your enemy; in other words, when you do what your enemy do to stop them, this help to spread the evil behavior of your enemy instead of stopping it; therefore, you must seek to stop the evil behavior of your enemy by seeking justice in a righteous manner. Amen!
