

GRUESOME NEWSOM

Since the Democratic Party is accusing Donald Trump of interference with the election, this is like “the pot calling the kettle black”; in other words, the Democratic Party are so hypocritical, because they are accusing Donald Trump and others of election interference, while the entire Democratic Party is guilty of committing the same crime according to 18 U.S. Code § 594, which state, “No one has the right to threaten, intimidate, or coerce anyone for the purpose of interfering with their right to vote or vote as he/she may choose, or of causing a person to vote or not vote for a candidate”, which is a federal law.

We have witnessed Governor Newsom, President Biden and other officials of the Democratic Party to interfere with the processing of voting, and intimidate people for voting on policy on numerous occasion in the media via television, newspaper articles, radio, the internet et cetera. These Democratic officials are penalizing innocent people for exercising their legal right to vote on policies, laws, and the rights of parents; moreover, these democratic officials are interfering with their due process of law for the following reasons: the president, governor of California, and any other governmental officials do not have the right to use their position to change the outcome of a vote. This is surely a sign of the democratic party are ruling the country by means of a

dictatorship instead of democracy, because they always use their position to force their will on the people instead of governing according to the outcome of a vote by the people. Just because they do not like the outcome of a vote, this does not give the right to change it. These people are not doing anything illegal by voting. Yet the Democratic Party is prosecuting these people. The Democratic Party is destroying democracy by interfering with the right to vote. This is where it really gets sinister! The Democratic Party agreed with the process to vote on these issues, then they got mad and retaliated, because they lost. If it was wrong to vote on the issue, then why did the democratic party vote on the issue? If the democratic party had won the vote, then they would not complain, but celebrate and rejoice in the voting process. Therefore, it is okay to vote if the result is in the Democratic Party's favor.

I could understand if these people are making laws, polices et cetera in an illegal manner, then governmental officials have the right to stop them. Notice that there are no criminal charges against these people, and there is no law to prevent their right to vote; therefore, these people are innocent, and the President, Governor Newsom et cetera are abusing their power over these innocent people. Since these people did not do anything illegal, why the democratic party are not trying to reason with these people to resolve this issue instead of imposing their will on these people in a corrupt manner, and treating them like criminals by imposing

penalties, and fine on them? Governor Newsom and President Biden are abusing their position in office by penalizing people who has not broken any law. The government does not protect law abiding citizens but punish them for keeping the law. Every act that Governor Newsom and President Biden has taken is an act of intimidation and threat to force these people to change the vote. They are attacking the process to vote. This is not due process of law, because there is no law against voting; as a matter of fact, the law supports the right to vote to resolve issues instead of intimidating and threatening people like the democratic party are doing to force their will on others.

I was once jumped on by some democratic people for not voting for Obama, and excommunicated by some so-called "friends" for not voting for Joe Biden. I am not against voting, but I refuse to vote for anyone, because there is not a candidate worthy of my vote. In other words, I do not vote for the Democratic Party or the Republicans Party due to the level of corruption in both parties. Neither party is interested in democracy (that is, governing by the will of the people), but a dictatorship. Therefore, I have not only witnessed the Democratic Party to intimidate, threaten, or coerce other people into voting, I am a victim of being coerced, manipulated, intimidated, and threatened to vote for Democratic candidates, their policies et cetera. There is only an illusion of democracy, because the final decision is not decided by the people via a vote, but the decision of the

Democratic Party or Republicans Party (which ever one is in power).

I really believe that the polls in the media are rigged, too. I discovered this conspiracy by examining the outcome of the mayoral election in Los Angeles, which led me to notice the same pattern with federal officials' conspiracy to manipulate the result of the polls. In other words, these state and federal officials have cooked the book by making their rating look better than they really are.

I will prove that the mayor of Los Angeles' approval rating is less than 25%, and the approval rating for the President is less than 25%. Yet the media for the past forever years always say that their rating is between 40% to 60%. This is not possible, because there are four million people in the city of Los Angeles. Nearly 928,000 voted, which is less than 25% of the population in Los Angeles, and less than 50% of eligible voters; moreover, only 508,860 voted for Karen Bass, which is only 12.5% of the population of Los Angeles, and less than 25% of eligible voters. Therefore, her approval rating is actually less than 25%. Yet the media report that her approval rating is 50%. How does candidates for mayor, governor, the president et cetera can assume office with such a low rating. Politicians speak of democracy, which is the will of the people. Yet over 70% of the nation disapprove of a Republican or a Democrat as president, over 70% of the population of California disapprove of Newsom as governor of California, and over 70% disapprove of a republican as

president, yet it is always and only a democratic or republican candidate revealed as an option for us to choose to pick to run and hold these office. To get a vote passed in the Senate, you need at least 50% of the vote. These politicians' approval rating is who voted for them instead of some poll, because when re-election occurs, again, the percentage of eligible voters to vote to approve of them in office is always less than 25%.

This research reveals some interesting facts about the people of America. I can understand why people with black skin to boycott voting. Yet there are a large percentage of Spanish speaking people, and people with white skin who are not voting. I took a survey to ask people with white skin for their reason of not voting for Republican or a Democrat. A large majority hate the government, because they do not think that democracy exists. They believe that politicians govern as a hierarchy. Wow! So, the government are not just racist towards us, but towards people with white skin, too. That is like white people are racist towards each other. Lol! Just joking! No serious, people with white skin are not facing the same racist ways as us, but they do face it e.g., they feel that the government rule by ranking others illegally above others according to fame, statues, money, et cetera instead of governing us equally. Therefore, since we see only Democratic candidates and Republicans candidates to run for president, democracy does not exist, because the will of the people is for a third option; however, the Democratic Party and Republican

Party agree on one thing, which is prevent the will of the people to exercise democracy by allowing another options for the people.

Since the Democratic Party is guilty of manipulating the outcome of the votes, tempering with the process of a vote, fraudulently and dishonestly arranging the outcome of a vote to get the result that they want, or to give an unfair advantage to them, why there are not charges against them, too? Because the Republican Party do not have the balls to prosecute the Democratic Party. Both parties are corrupt, but the Democratic Party is more powerful than the Republican Party. Therefore, the Democratic Party rule the media, school, government et cetera. Once upon a time, the Republican Party ruled the nation. Nevertheless, the power keeps shifting between these two parties instead of the people.
