6-Panel N/N

Ee, Aa, nCR, gg

Sire: RHA Iron Will

Dam: Oganali Zeva

2021 Fee: \$700

Mare Care \$5/Day

FVF Iron Sabre was born in 2015 at Foggy Valley Farms in Tennessee. Sabre is the first registered/documented Appaloosa to Appaloosa bred horse with 7-generations behind him containing nothing but registered Appaloosa ancestors. He is registered with the ApHC, GAP 7, and with the ICAA, F7. He is the closest thing to an 8-generation Purebred Appaloosa that is in existence today. Sabre is broke to ride and was shown lightly at halter as a weanling and yearling. We test bred Sabre to an F5 mare in 2020 and they produced an outstanding G6/F6 colt that we have big plans for. If you are interested in producing Purebred Appaloosas, please contact us at Foggy Valley Farms and we will be happy to talk about our breeding program and our quest to Develop, Protect and Promote a new Breed of Purebred Appaloosa Horses.
