

Winter 2022/2023 Newsletter

From the Arena Fence

2022 has been an interesting ride and 2023 is knocking on the barn door. We hope everyone has a safe and fruitful foaling season and success in the arena to those out showing off their ICAA horses.

We have some projects in the works to bring ICAA into the digital age making completing registrations, and answering inquiries more streamlined and user friendly. Our virtual shows have been a hit along with our various specials.

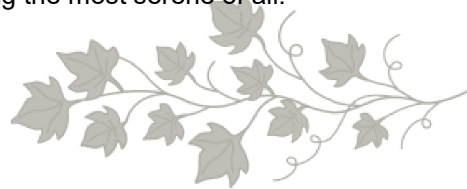

Be watching as the Board is brainstorming fresh ideas for the upcoming year. We would love to have feedback and ideas from our members so don't be shy! Reach out to your District Rep, Sharon, or myself; we would enjoy chatting with you.

SMOKIN' TRUE RANCH Dawn Beach-Spencer

Smokin' True Ranch is located in Clearwater BC Canada and home to several amazing appaloosas.

What drew me to Clearwater from the coast were the 4 definite seasons you can count on. All are very beautiful with none quite as stunning as winter; cold, fluffy white snow that makes you want to run out and do a snow angel. However, my favorite winter pastime has to be spending it with my horses. We skijor, drag giant truck innertubes with as many people piled on as possible and go like stink! The sleigh rides being the most serene of all.

Appaloosa Breeding and Uses

"The Nez Perce bred Appaloosas for transport, hunting, and battle. The modern Appaloosa is still an extremely versatile horse. Its uses include pleasure and long-distance trail riding, working cattle and rodeo events, racing, and many other Western and English riding sports. The breed also is frequently seen in film and on television, where its distinctive markings can steal a scene. It's a friendly, gentle horse whose loyalty makes it an especially rewarding and enjoyable companion." Katherine Blocksdorf

Dawn Riding "Tosh"

We here at Smokin' True Ranch use our Appaloosas all these ways and are even finding they are very good driving horses. Many ask us if we find the Appaloosa stubborn and hard to train. The answer is a "no," as each and every one of them has been agreeable to anything asked of them. Ellen Hockley, from The Ranch in Prichard BC, trained our team of spotties and continues to help us learn more driving skills. They all have individual personalities that shine.

It's like taking a step back in time with a ride in an old fashioned horse-drawn sleigh in the winter wonderland. Cozy up under a blanket while gliding through snow-covered forest trails during your ride, hot chocolate in that travel mug, and room for a friend!

Thank you Dawn and Smokin' True Ranch for all of the beautiful photos provided (I wish we could use them all) and for showing us how all of your horses have jobs, work hard, and promote the athleticism, temperament, and versatility of the Appaloosa!

Introducing ICAA's First Registered F7 (GAP 7 ~ 7-Generation) Filly, JCA Rogue Rose!!!

This stunning bay dun, near-leopard filly was bred by the late Mark Whiting, of Goin' Rogue Ranch, born to Izzy Olson, and proudly owned by Joanne Jordan, Olympic Appaloosas.

"River" is by FVF Noden Paco (F6), who was bred by Jan Dobson, Foggy Valley Farms, and out of GGR Molala Lil, who was bred by Mark Whiting.

This is only the second documented 7-generation filly in history that we are aware of. Congratulations Joanne for being the lucky recipient of this very special little girl!

Dedicated to the Development, Preservation, and Promotion of the Purebred Appaloosa

- ❖ Foundation was a place to start. The ICAA is building the finished product -- a breed for the future, one generation at a time.
- ❖ Founded in 1991, the ICAA is well established and in it for the long haul.
- ❖ The only registry offering a program to track a horse's training from birth.
- ❖ The only registry building a database of breeders who are producing five-plus generation horses.
- ❖ A "stand-alone" registry that does not require prior registration in another registry if the horse is the product of an ICAA registered sire and dam.
- ❖ The only registry using the full-generational concept of eight-generations plus, with no out-crossing, to produce a true, purebred Appaloosa, following the generally accepted genealogy method of generational identification.
- ❖ The ICAA is partnered with AGI and offers members exclusive pricing options on 6-Panel, color, and pattern testing, as well as DNA Profiling. Parentage verification is free on foals from parents who have been DNA Profiled.

Cuteness Overload! A testament to the Appaloosa temperament, young Stella with two weanling fillies, JCA Rogue Rose (F7) and BCA Olympic Drizzle (F6). Their owner, Joanne Jordan, does an amazing job with her horses from babies up by getting them out there to experience the world they'll see as adults.
