

Many of our horses have pedigrees full of the old ApHC foundation horses, but there are some that do not. ICAA has a place for most Appaloosas with documented pedigrees. Whether your horse has only one generation of registered Appaloosas (both parents) or many, there is a place for you to begin your endeavor to support and/or produce 8+ generation Purebred horses. We will also accept qualifying geldings with unknown or other breed parents allowing owners to support ICAA and compete in ICAA programs.

BCA Yamas Otamba (F6)
6-Generation Mare

ICAA is a stand-alone registry. Once the parents have been registered with ICAA, their offspring need not be registered in any other registry as the parent's pedigrees have already been documented

Poplars Zamocho (F6N)
6-Generation Stallion

We are the first stock horse breed registry that is striving for a genetically clean registry. Testing for genetic defects as well as DNA Profiling and Parentage Verification is a requirement for registration. These requirements enable ICAA to be a reputable and elite registry.

ICAA Programs

ICAA offers a number of competitive & non-competitive Programs for membership involvement.

- ❖ Open Show Point Program – Compete in Open, Breed and/or ApHC events to earn points and compete for Year End Awards.
- ❖ Distance Program – Compete in Endurance and Competitive Trail events and earn Year End Awards.
- ❖ Horsemanship Program – For those who want to log the time they spend with their Appaloosas in non-competitive activities.
- ❖ Production Achievement Awards – For mares and stallions producing a specific number of colored foals.

ICAA stallion MHS Mintaka of Orion (F5)
He has had quite the impressive start to his show career in 2023 as a two-year old.

~~~~~

We believe that the true Appaloosa is an honest all-around hard working family horse that is easy to keep and deserves recognition throughout the world. In addition to its three unique characteristics and unmistakable coat pattern, the Appaloosa is known for its

Athletic Ability,  
Devoted and Loyal Heart,  
Durability and Versatility,  
and Gentle, Willing Disposition

~~~~~

See if your horse qualifies for registration with ICAA. Go to the Calculating Level page on the website and you can easily figure which registry classification your horse qualifies for.

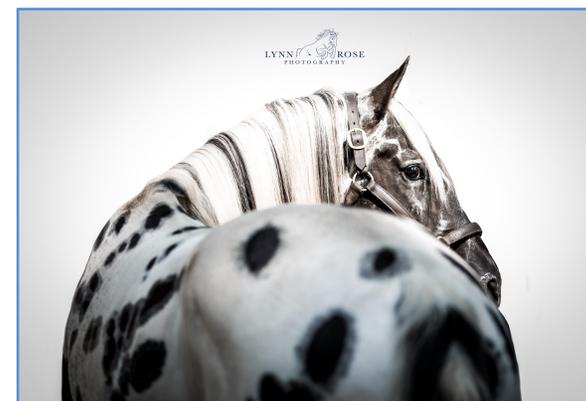

International Colored Appaloosa Association, Inc

Dedicated to the Development, Preservation, and Promotion of the Purebred Appaloosa

Welcome to the International Colored Appaloosa Association (ICAA)! The only Appaloosa Registry dedicated to creating 8+ generation Purebred Appaloosa horses that will be recognized and accepted internationally as a true Blood Breed!

CTR Super Sonic (F4)

ICAA ~ Founded in 1991

- ❖ Foundation was a place to start. The ICAA is building the finished product -- a breed for the future, one generation at a time.
- ❖ Founded in 1991, the ICAA is well established and in it for the long haul.
- ❖ The only registry offering a program to track a horse's training from birth.
- ❖ The only registry building a database of breeders who are producing five-plus generation horses.
- ❖ A "stand-alone" registry that does not require prior registration in another registry if the horse is the product of an ICAA registered sire and dam.
- ❖ The only registry using the full-generational concept of eight-generations plus, with no out-crossing, to produce a true, purebred Appaloosa, following the generally accepted genealogy method of generational identification.
- ❖ The ICAA is partnered with AGI and offers members exclusive pricing options on 6-Panel, color, and pattern testing, as well as DNA Profiling. Parentage verification is free on foals from parents who have been DNA Profiled.

The ICAA's stated purpose is to preserve the Appaloosa's heritage, use modern genetic testing to eliminate genetic defects, establish an "Ideal Type," and to promote the versatile and athletic Appaloosa Breed throughout the world.

The ICAA founders and members have adopted the highest recognized genetic standard - 8 generations of Appaloosa to Appaloosa - to create the Purebred Appaloosa. The founders of ICAA are principled breeders using proper breeding practices to create purebred Appaloosas that will regain the Breed's popularity in the equestrian community.

BCA Yamas Noctiluca (F7)
One of only a few documented 7-generation Appaloosas fillies in the world.

If you love the magnificent Appaloosa, whether you own one or not, ICAA invites you to join the dedicated members who are working to restore the Appaloosa to its rightful place in the equestrian world. Your support and help are needed to spread the word about the ICAA Purebred breeding goals. Your ideas, comments, and participation will help ICAA promote the Appaloosa throughout the USA, Canada, and the world. If you have questions or would like to volunteer, contact us by phone or email listed below.
