Sire: Still Max

Dam: Wakon's LacyBritches

<https://www.allbreedpedigree.com/wakons+snow+leopard>

Fee: \$1,000 USD

With keen mind, a hardy build, good bone, and great feet, Wakons Snow Leopard has many characteristics that made the Appaloosa a tough, unique breed, with good bone, strong hooves, good balance, and a rugged, sturdy build. He throws great bone to his foals. This beautiful stallion's pedigree speaks for itself, with some great old foundation bloodlines, including Prince Plaudit and other greatest Appaloosa sires; Mansfield's Comanche, Double Six Domino, and Navajo Britches (refer to the All Breed Database link above). Snow Leopard was bred by Wakon Appaloosas in Washington state, USA, and is owned by Winged Hawks Appaloosa in British Columbia, Canada. 15.1 hands. For more information, and videos, go to his Facebook page at <https://www.facebook.com/profile.php?id=100064196374350>.

Live cover only. Snow currently has 27 ApHC registered foals, with 81% classified as regular registered.

Check out the Saddle Up Canada, February 2021, cover page, featuring Winged Hawk's Appaloosa, 10-year celebration, raising quality foundation Appaloosa horses, and page five, featuring Wakons Snow Leopard.
