A Message From BrightView

Wet Conditions Around Neighborhoods

Due to the recent rains and upcoming rains later this week, some areas of your community may not get mowed. We have standing water on some sides in between homes, and there are backs of homes that have become dangerous for us to put equipment on. Our goal this week is to maintain (mow) as much of the turf as possible, but this may be limited to fronts and/or high focal areas.

The last thing we want to do is create a mess or larger issue. We will continue to monitor all locations and when it is appropriate to put equipment there, we will.

As always, we will keep you updated.
