POOL UPDATE

Dear Naples Reserve Residents,

The Island Club pool will be closed Monday, October 24th to Friday, October 28th due to a much needed acid wash. The acid wash will remove the staining at the bottom of the pool and keep the finish beautiful and bright! We thought carefully about the timing of the closure as we know it will inconvenience many. With the cold front next week, the pool heater still being fixed, and no entertainment scheduled, we thought it would be a good time to get this treatment done before high season.

Please note that the Tiki Bar, Island Club, Fitness Center, and Watercrafts will remain open during this time. It is only the pool that will be closed.

Pool heater update:

The pool heater control panel was submerged in water during the hurricane. A technician was on site on Wednesday and has ordered the parts needed. Replacing the panel is the first step of the repair. They are hoping to have the parts next week. We are pushing to have this fixed as quickly as possible. We apologize for the inconvenience.

Please feel free to reach out with any questions.

Thank you and have a nice evening!
