Submit your picture to naplesreserveadmin@kwpmc.com with the subject #CasuallyAwesomeNaplesReserve don't forget to add your name and address.

Naples Reserve Management Office

A WORD FROM THE CDD

Regarding weed growth in the lake banks:

Dogfennel (the tall Christmas tree looking weed) is considered an aggressive weed that can grow to about 8 feet within a few weeks. It is actually more aggressive during the dry season which is why we see it in the lake banks to a larger degree.

According to the State of Florida, dogfennel under 24in is considered "under management". Having said all of that, it is unattractive and we can do better.

A work order has been placed to have it treated, once treated the tech leaves the stalk standing until the roots are dead. If they cut or break the plant it stimulates the roots for further growth, this process can take up to 3 weeks.

PROJECT UPDATES

GEOTHERMAL WATER HEATER INSTALLATION - BOCCE COURTS

The Bocce courts will be temporarily closed until further notice due to work being done for the installation of the Geothermal Water Heater.

STREET LIGHT & SIGN

We were able to place an order for the replacement at the beginning of March. The lead time for the streetlight is several months. We are still waiting but hope for good news soon.

EMG TREATMENT

EMG Treatment of the neighborhood sidewalks has been completed. Please remember that this treatment takes time to see the results. The treatment is activated by rain so we should start seeing the results in the coming weeks and months.

DOG PARK

The Board recently approved running potable water to the dog parks so it will no longer be "filtered lake water. We are coordinating with the plumbing firm to have this work scheduled.

POOL FURNITURE

An additional 40 lounge chairs for the pool have been ordered and are almost finished being made.

LATITUDES CAFE AND TIKI BAR

There is a contractual obligation between Naples Reserve HOA and the food and beverage vendor, Frisco's, to not allow outside food and beverage during their hours of operation. PLEASE do not bring any outside food or beverage to the café, Tiki Bar, or pool area during the hours that Latitudes Café and the Tiki Bar are open.

AROUND THE COMMUNITY

VANNESSA'S ART WITH GLASS CLASS

AROUND THE COMMUNITY

CHEF ANITA KERN

Demonstrated how to cook a delicious Father's Day dinner. Participants brought their appetites and extra containers for leftovers.

COMMITTEE CORNER

Dear Naples Reserve Residents,

We wanted to inform you about an important update regarding the Design Review Committee (DRC) email.

Management has made the decision to migrate the current DRC email to a newly created email address. This change is being implemented to enhance our communication processes and improve collaboration within the committee.

During this transition period, Indiana and the management team will be temporarily managing the DRC email. They will ensure prompt responses and assistance for any inquiries or matters related to the committee.

Should you have any questions or concerns, please do not hesitate to reach out to Indiana at drc@naplesreservehoa.com.

UPCOMING MEETINGS

Planning to improve the exterior of your home?

The DRC will go back to their regular two meeting a month schedule in January.

Applications are due 2 weeks prior to those dates. If you have any questions, please contact us at drc@naplesreservehoa.com

- June 28th, 2023
- July 12th, 2023

To obtain a copy of the DRC Modifications application, please visit our website's documents section.

DESIGN REVIEW

NEXT BOARD MEETING

The next board meeting will be held on July 12th at 6:30 P.M. in the Activity Room of the Island Club building. As always, all members are encouraged to attend.

NAPLES RESERVE LIGHTNING POLICY

- The pool, pool area, tiki bar, beach area, and watersport equipment must be vacated immediately when cloud to ground lightning is detected within 10-miles of the Island club. When the all-clear is given (no lightning is detected within 10-miles for 30 minutes) normal safe operations can resume.
- When lightning is detected within a 10-mile radius of the Island Club, a 15 second horn blast will warn patrons and staff, the area must be vacated immediately. A lightning alert (indicated by a yellow flashing light on the Tiki Hut) will be used to show the area is to remain vacated. The yellow flashing light will remain on until the all-clear is given, indicated by three shorter 5 second horn blasts.
- * If you are using any of the lake equipment and start to hear thunder immediately return to the outrigger regardless of the storm's direction or proximity. **"!!! IF YOU HEAR IT, FEAR IT !!!"**
- * If there is a high probability of thunderstorms in our area, paddle sports may be asked to stay close to the Outrigger, "Thunder Cove", and Duffy boats to remain in the main lake (Clubhouse side of the bridge)

NAPLES RESERVE LIGHTNING POLICY (CONT.)

Dangers of Severe Thunderstorms:

- Cloud to ground lightning
- Tornadoes
- Large hail
- Straight line winds in excess of 45mph
- Flash Flooding
- Ponding on Roadways
- Limited Visibility

Lightning: What You Need to Know

- **NO PLACE** outside is safe when thunderstorms are in the area.
- If you hear thunder, lightning is close enough to strike you.
- When you hear thunder, immediately move to safe shelter: A substantial building with electricity or plumbing or an enclosed metal-topped vehicle with windows up.
- Stay in a safe shelter at least 30 minutes after you hear the last sound of thunder.

Visual clues in and around the storm will tell you the direction of movement. If you can see the anvil of the cloud (*image in prior page*) it is usually stretched out in the direction of the upper-level winds. This is **typically** an indication of the storm's direction of travel.

THE MANAGEMENT OFFICE WISHES YOU AND
YOUR FAMILY AN AWESOME WEEKEND.
