

Community Emergency Response Team (CERT) members are volunteers residing in Naples Reserve to serve our community in time of disaster and in emergency situations.

CERT is an arm of the Homeland Security Act, FEMA, and Citizens Corps. At the local level basic training is provided by our local sponsor the Greater Naples Fire and Rescue District. Basic equipment is allocated in the HOA budget.

The Naples Reserve Community Emergency Response Team members are trained in basic triage, basic first aid and search and rescue operations. This team made up of your neighbors makes a difference! We are ready to serve our community when the professionals cannot reach you after a hurricane, tornado, or other natural or man-made disaster.

For further information about the CERT program please send an email to:
