

*Helping you in
times of need*

GreenStone FEDERAL

DUNS: **118190434**

Greenstone Federal, LLC is a woman-owned firm based in Miami that offers a wide variety of products and services related to emergency response. From our vast experience working with many relief missions in times of need, we are always prepared to quickly help people affected by natural disasters.

As we also live in one of the most hurricane-prone areas in Florida, and we perfectly know the damages these natural catastrophes and superstorms can cause to people, their homes and values, our own experience gives us unique insight into how better serve our communities.

Among other goods and supplies, we help people in need with a number of products from water, prepackaged meals, and frozen produce to batteries, flashlights, first aid kits, tarps, and generators. For us, there is a humanitarian imperative to help those severely affected by emergencies of any kind. Socio-economic: Women-Owned Small Business Certification pending.
