

Scholarships Available for Our Real Estate Appraisal Practicum Program

At **Elite Appraisal Academy**, we believe that cost should not stand in the way of building a successful career in real estate appraisal. A limited number of scholarship opportunities are available for qualified students enrolling in our **Licensed Residential** and **Certified Residential Practicum Programs** beginning **September 15, 2026**.

Scholarships are designed to help aspiring appraisers and professionals continue their education while reducing the financial burden of completing their required training. Depending on eligibility and available funding, scholarships may cover a portion of tuition, educational materials, or other program-related expenses.

Our practicum program provides hands-on training, one-on-one mentoring, real-world appraisal experience, and guidance through the licensing or certification process. Students receive practical instruction designed to prepare them for success in today's appraisal industry while meeting state experience requirements.

The next class begins **September 15, 2026**, and scholarship funding is limited. We encourage interested applicants to apply early, as awards are made based on eligibility and available funds.

For scholarship information, eligibility requirements, or to request an application, please contact Elite Appraisal Academy today. Our team will be happy to discuss available funding opportunities and help you determine the best path toward becoming a Licensed or Certified Residential Appraiser.

Program Start Date: September 15, 2026
